VALUABLE INFORMATION FOR BUSINESS MEN.

NOTES—Demand Notes are payable on presentation without grace, and bear legal interest after a demand has been made, if not so written. Δn endorser on a demand note is holden only for a limited time.

A Negotiable Note must be made payable either to bearer, or be properly endorsed by the person to whose order it is made. If the endorser wishes to avoid responsibility, he can endorse " without recourse."

A Joint Note is one signed by two or more persons, who each become liable for the whole amount.

Three days' grace are allowed on all time notes, after the time for payment expires; if not then paid, the endorser, if any, should be legally notified to be holden. Notes falling due on Sunday or on a legal holiday, are paid the day following.

Altering a note in any manner by the holder makes it void.

Notes given by minors are void.

ES

DO.

er.

le

The maker of a note that is lost or stolen is not released from payment, if the amount and consideration can be proven.

An endorser has a right of action against all whose names were previously on a note endorsed by him.

CANADIAN BANK NOTES.

Under the Banking Act, which went into effect 1st July, 1891, the Bank Notes of any Canadian Bank are redeemable at par in any part of Canada. Previous to this it was the custom of the Banks in one Province to charge a small commission for eashing the Notes of Banks in distant Provinces; this is now done away with.

Another important point is that under the new law, it is impossible for the holders of Notes of failed or suspended Banks to loose by them for a fund has been established, and is now in the hands of the Gevernment at Ottawa, amply sufficient to pay the notes of any suspended Bank. This fund, which is known as the "Bank Circulation Redemption Fund," was formed by a contribution from every Bank, graded according to circulation, and should it fall below a specified amount, owing to the payment from it of the notes of a failed Bank, the other Banks of the Dominion, must again contribute to make up the deficiency. In fact, strange as it may appear, such notes would be very likely to go to appremium at once, as by law they bear six per cent, interest from the time of the Bank's suspension until the day named for payment.

The amount of notes of any Bank in circulation at any time shall not exceed the amount of its unimpaired capital, subject to penalties varying with the amount of such excess.

The payment of notes issued by any Bank for circulation shall be the first charge on its assets in case of insolvency, any amount due to the Dominion Government shall be the second charge, and any amount due to the Provincial Government shall be the third charge.

Any Bank, when making payment, is compelled, if requested, to pay the same, or part thereof, not exceeding one hundred dollars, in Dominion notes, for \$1, \$2, or \$4 each.

TIDE TABLES.

q

TIDE TABLES FOR HALIFAX.

These Tide Tables, for Halifax and Quebec, with tidal differences for other places, are supplied by the Tidal Survey Branch of the Department of Marine and Fisheries of the Dominion of Canada. They are based upon direct observations of the Tides obtained by means of self-registering gauges which are kept in continuous operation day and night throughout the year. The records are reduced by the latest methods of analysis, and the computation of the Tables is made by Mr. E. Roberts, F. R. A. S., of the Nautical Almanac Office Landon. The Tidal Differences when applied to the Tide Tables, give the time of high and low water at other places in Standard Time. The differences applicable to the Halifax Tables are derived from the Establishments given in the Acmiralty list. They will, therefore, be correct at full and change of the moon, approximate only at other times in the month.

TIDAL DIFFERENCES for the Atlantic Coast of Nova Scotia. These differences when applied to the Halifax Tide Tables, give the time of Hirh and Low Water at the places named, in Standard Time, for the 60th Meridian; which is four hours slower than Greenwich Mean Time.

Dr. Herrick's Liver Pills.

This Medicine without a doubt has made more wonderful cures than ten other medicines combined.

DR. HERRICK'S LIVER PILLS

have stood the test of sixty three year's investitigation, and to-day stand at the head as positively curing SICK HEADACHE, INDIGESTION AND ALL IMPURITIES OF THE BLOOD. FOR TONING AND BUILDING UP THE WHOLE SYSTEM THEY HAVE NO EQUAL. Try them reader, you are not experimenting with an unknown medicine, but simply following those who have used DR. HERRICK'S PILLS for years, and know of their great curative powers.

Sample for a cent stamp if you mention this Book.

-RENNIS-

Pain-Killing Magic Oil.

Is another one of our grand preparations. It is invaluable for RHEUMATISM, COLDS, SORE THROAT, and PAINS AND ACHES OF ALL KINDS. RENNIS PAIN KILLING MAGIC OIL is safe and clean to use, and is not of an oily nature. Try it and convince yourself as thousands have done that RENNIS MAGIC OIL gives speedy relief and a sure cure. . . . Sold at Druggists and General Stores.

Assessment System.

(ESTABLISHED 1881.)

Mutual Principle.

MUTUAL___

Reserve Fund Life Association.

OTHERS FOLLOW.

F. A. BURNHAM.

President:

The Motto of the Management is and will continue to be_

"Good Work at Honest Cost; True Economy, and not its Shadow."

Why you should insure in the Mutual Reserve

THE ARE THE ARE

Its new Policy, with rates about 40 per cent. below the Old System, contains all the essential features of Life Insurance, viz.: In case of total disability half the face of the policy will be paid, a cash surender value or extended Insurance after five years, premiums reduced by dividends after the eleventh year, &c.

Me alle alle alle alle

It has a record unparalleled in the history of Life Insurance.

It has been the best abused Company in the world by its competitors, because it has saved its policy holders nearly fifty million dollars they would have had to pay the Old Line System, and gives infinitely better security.

SUCCESS IS THE ART OF SUCCEEDING.

Insurance in force, Amount held in Canada, \$330,000,00⁰ 37,000,000

The largest amount with a single exception of any Company on any plan in the Dominion.

Surplus over all Liabilities, over Death Claims paid since organization, over

\$ 4,000,000 30,000,000

WEATHER GUIDE.

The following Table (the result of many years' actual observation) is ascribed to Dr. Herschel. It is constructed upon a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and serves to show what kind of weather will most probably follow the entrance of the Moon into any of her quarters:—

Moon.	Time of Change.	In Summer.	In Winter.
If New Moon, First Quarter, Full Moon, or Last Quarter, happens	Between midnight & 2 A. M. " 2 and 4 A. M. " 4 " 6 " " 6 " 8 " " 8 " 10 " " 10 " 12 " At 12 Noon, and to 2 P. M. Between 2 and 4 P. M. " 6 " 8 " " 6 " 8 " " 8 " 10 " " 10 " midnight.	Fair. Cold with showers. Rain. Wind and rain. Variable. Showery. Very rainy. Variable, Fair. Fair if wind be N. W. { Rainy if S. or S. W. { Ditto. Ditto. Fair.	Hard Frost unless wind be S. or W. Snow and stormy. Stormy and rainy. Stormy. Rain if wind W. Snow if E. Cold and high wind. Snow or rain. Fair and mild. Fair. Frosty if wind N or N E. Snow if S or S W Ditto. Ditto. Fair and frosty.

The nearer midnight any of the Moon's changes occur, the finer will be the weather during the succeeding week; the nearer noon any of those changes happen, the more foul and wet will be the weather that will follow.

BELCHER'S ALMANACK.

BELCHER'S ALMANACK FOR 1898.

Calculated for Halifax, Lat. 44° 39′ 20″ N., and Long. 63° 36′ 40″ W. from Greenwich,—and for ordinary purposes will serve, with sufficient accuracy, for all parts of the Province, including the Island of Cape Breton.

Calculated by W. A. GATHRIGHT, Dabneys, Virginia, U. S. SIGNS OF THE PLANETS, ETC.

ECLIPSES. ETC.

In the year 1898 there will be six Eclipses—three of the Sun and three of the Moon.

I. A partial Eclipse of the Moon, January 7th, visible generally in the eastern portions of North America, in South America, Europe, Asia and Africa; occurring here as follows:

Moon enters penumbra......January 7th, 5h. 45m. A. 7th. 7h. 34m. A. 7th, Middie of Eclipse 8h. 21m. A. Moon leaves shadow 7th, 9h. 9m. A. " Moon leaves penumbra 7th, 10h. 57m. A.

A Total Eclipse of the Sun, January 22nd. Not visible to Visible to Eastern Europe, the greater part of Asia and Africa, and to the Northern part of the Indian Ocean—the line of totality running through the Chinese Empire, India and Eastern Africa.

A Partial Eclipse of the Moon, July 3rd, not visible to North

America, but visible generally in Europe, Asia and Africa.

IV. An Annular Eclipse of the Sun, July 18th. Invisible to North America Visible to the South Pacific Ocean, and the extreme southern part of South America; the line of annulus passing through the South Pacific Ocean.

V. A Partial Eclipse of the Sun, December 13th. Invisible here. VI. A Total Eclipse of the Moon, December 27th. Visit generally throughout North and South America, Europe, Asia and Africa. Occurring here as follows:

Moon enters penumbra......Dec'r 27th, 4h. 19m. A. Moon enters shadow "
Total Eclipse begins " 27th. 5h. 34m. A. 6h. 44m. A. 27th. Middle of Eclipse " 27th, Total Eclipse ends..... " 8h. 13m. A. 27th. Moon leaves shadow " 9h. 22m. A. 27th. Moon leaves penumbra 27th, 10h, 37m, A.

MORNING AND EVENING STARS, 1898.

The Planet Venus (Q) will be morning star till February 15th; then evening star until December 1st; and the morning star the rest of the vear.

The Planet Mars (3) is morning star all through this year.

The Planet Jupiter (21) will be morning star till March 25th; then evening star till October 13th; after which he will be morning star to the end of the year.

The Planet Saturn (b) is morning star till May 30th, then evening star till December 6th; and then morning star until end of the year.

ANNIE SWAN'S BOOKS, at Methodist Book Room, HALIFAX.

BELCHER'S FARMER'S

Aphelion-that part of a planet's orbit farthest from the Sun.

Perihelion—that part of a planet's orbit nearest the Sun.

Elongation-angular distance of a planet from the Sun, as seen from

Penumbra-a partial shadow resulting from the diminished light of the sun to the earth or moon, during a solar or lunar eclipse, appearing

Declination—the distance of a heavenly body from the equinoctial line

Ecliptic—the plane of the earth's orbit nearest the sun.

Apogee-greatest distance from the earth. Perigee-least distance from the earth.

Quadrature. & Opposition. d Conjunction.

Ascending node. ?? Descending node.

The letters M. A., m. a., denote morning and afternoon; h. m. s. hours, minutes and seconds.

N. north, E. east. O Degrees, / Minutes of Arc.

S. south.

52

W. west.

" Seconds of Arc.

The Astronomical day is reckoned from Noon to Noon through the 24 hours. Thus July 21, 9h. is 9h. A. of July 21st, and July 21st, 15h. is 3h. M. of July 22.

The Sun's Declination and Equation of Time are given for Noon at Halifax, Apparent Time, i.e. when the True Sun is on the meridian.

The Moon's Southing is given in Astronomical Time for the Meridian Passage at Halifax; and her declination when on that meridian.

Both the rising and setting of the Moon are given for every day in

To find the length of the day-subtract the time of sunrise from 12 hours, and to the difference add the time of sunset.

To find the length of the night-subtract the time of sunset from 12 hours, and to the difference add the time of sunrise next morning.

In this Almanac all the times except for Moon's Southing are Mean Time at Halifax, i. e., Civil Time. The Moon's Southing is given for Astronomical Time at Halifax.

Standard time is 15 minutes earlier than Halifax Mean Time, and the Railway Time one hour later than Halifax Standard Time.

WEATHER GUIDE.

An observation said to have been made in London and Florence, extending over a period of fifty years, and observed in Halifax for the past thiry years, over a period of fifty years, and observed in maintain a second period of the moon through shows the weather will be the same as the last three days of the moon. It is necessary the first three quarters taking a day for each quarter of the moon. to make a calculation of the exact time of the beginning of each of the three days, making due allowance for difference of time between the lunar and solar day

The weather will remain the same during the whole month as it is on the 5th if it continues unchangeable on the 6th, and like the 4th day if the 6th resembles the 4th. Due observations must be made as to when the day begins, allowing for the difference of time as in the above. - Com.

APOTHECARIES HALL, 7 and 9 GEORGE ST., HALIFAX.

JANUARY —The modern farmer of the present day rarely tails in receiving a good return for his labour. This is the season to lay out his plans for spring crop. Petatoes and Indian corn yield best in a hot season, and not too wet, while oats, barley, peas, turnips, mangles and grass make most growth in comparatively cool weather and moist atmosphere. The occasional loss of the hay crop from drought shows that it is of the greatest importance for a farmer not only to make a judicious choice of crops suitable to the climate, and to the soils and exposures of his fields, but also to have sufficient variety in his crops, so that whether the s ason should prove a not and dry one, or coid and moist, or of a medium or average character, he may fairly expect a profitable return. Other kinds of torage should also be sown, so that reliance may not be placed entirely

APOTHECARIES HALL, G. A. STERNS, Proprietor.

upon the hay crop for the winter feed of cattle. Let it be remembered that a moderately cool wet season will give a good hay crop, while a hot dry one will ensure scarcity of this most important article of fodder. To meet this areasonable plot should be sown or planted with mangolds, turnips, or Indian corn. The latter is always advisable for ensilage in our varied climate and soils. No farmer should depend on hay alone for winter feed. All modern farmers in Great Britain, as well as many in Canada and the United States, use a mixed feed, or mashley as it is called, in the green state in summer time, and dried into hay, or for ensilage, in the winter. The following is a good mixture of seeds for mashley:—1 bushel broad horse beans, 1 bushel small peas, 2 bushel vetches, 1 oats. Or, 1 bushel peas, 1 bushel tares or vetches, 1 bushel oats. Or, peas, oats and wheat make an excellent mixed feed, to be cut quite green while the milk is in the kernel, for ensilage corn should be planted thin; twelve quarts (12) of seed is ample for one acre.

WOODILL'S LIVER, GOUT and RHEUMATIC PILLS

FRENCARY is the most trying month for cattle; we cannot too strongly impress the necessity of care in their feeding, watering and general treatment, at this season of the year. In order to overcome the many difficulties that appear in February, it is a good rule to give extra time and attention to the stock. In feeding grain and meal always mix them into cut hay, moistened,—and season with common salt. Cut hay does not digest any more rapidly than uncut, but it enables the meal or crushed grain fed with it to be more perfectly digested. Our farmers still suffer immense loss every year in striving to fatten cattle on meal, bran and middlings fed alone, without being mixed with cut hay as here described. When fed alone the meal simply passes through the animals in an undigested form, and is thus lost. In districts where an Agricultural Society does not already exist this is a good time to organize; farmers have leisure to attend a meeting and take steps for organization. Notification has to be made to the

Cure Rheumatism, G. A. STERNS, Manuf., 7 & 9 George St.

Office of Agriculture, so that the new society may be sanctioned by the Lieut.-Governor-in-Council, before the end of June, in order to qualify for the grant for the current year.

MARCH.— The kitchen garden, requiring but a small piece of ground, and yet one of the most valuable crops for the comfort of the home,—instead of finding on every farm a well-furnished kitchen garden, filled with vegetables and small fruits, sufficient for the family wants during the year and some to sell, such a luxury is the exception rather than the rule. There is no reason why every farmer's family should not be provided to a large extent with supplies from the garden, such as salads, rhubarb, early green peas, lettuce, radishes, cucumbers, early cauliflowers and cabbages, early beans, gooseberries, currants, strawberries, raspberries, winter radishes, turnips, beets, parsnips, artichokes, seasoning horbs, melons, squashes, and dozens of other delicious and substantial articles of cod hat cost nothing but foresight and some agreeable labor. The nature of

Woodill's Pills for Rheumatism, G. A. STERNS, George St.

our climate necessitates the use of hct-beds for raising seeding plants for those crops that require a long season to mature. A hot-bed is made by piling on successive layers of fine, fresh horse dung, obtained from a stable where oats are freely fed. The manure may be raised to a height of two or three feet above the surface of the soil. On top, spread four or five inches of very fine and rich soil mixed with sand; this should have been prepared in the fall, and kept dry under cover all winter,— otherwise it is likely to become a hard frozen lump or mass-Glass sashes are then put on and kept close till the hot-bed heats. The steam and heat will soon start the seeds and growth will be rapid. In this way lettuce, radishes, etc., may be ready for the table quite early in the spring.

For Rheumatism take Woodill's Pills, Apoth. Hall, Halifax.

APRIL.—This is the month to begin seeding as soon as the soil is fit, and this can be done much earlier and more rapidly where the land has been ploughed in the fall. The farmer should be ready to avail himself of the early opportunities resented by the varying years. It is not wise to seed till the soil is comparatively dry, and little is gained by early sowing until the ground is warm. In fields seeded down with timothy last fall, it will now be time to sow clover,—a mixture of red and alsyke is the best for hay. Where early potatoes are required, the seed should be kept in a warm place so as to start the eyes, and, wherever the ground is dry enough, they may be planted. This advice if not

Woodill's Pills, by mail, 25c. a box, G. A. Sterns, 7 & 9 Geo. St.

heeded will lead to potatoes coming up scantily, many rotting in the ground. If farmers instead of planting inert seed potatoes, taken out of a cold cellar, would first allow the eyes to start, there would be fewer complaints of the seeds perishing in the soil. Last year (1897) the spring opened early, but heavy and continuous rains through April, May and the greater part of June kept seeding back until very late from one end of the Province to the other, and as many farmers neglected the important matter of fall ploughing seeding was late, and in some ports farmers were unable to get the usual amount of seed in the ground.

A SURE CURE for RHEUMATISM are WOODILL'S PILLS.

6 25 A 2 35

30 Jas. Montgomery, poet, died, 1854 3 0

May.—In most parts of the Province ploughing will still have to be done; let it be done as soon as the land is fit; if manure has to be taken out for crops, don't wait for a more convenient season; if the weather is not all that is desired proceed nevertheless with your work, vary it to suit the state of the soil and atmosphere. Men cannot fight successfully against the operations of nature, but they can very often turn them to advantage by consideration and forethought. What has to be sown and planted this month? Everything, except what has either already been committed to the soil, or requires a warm seed bed like the turnip. Exceptional crops also are bush beans, pole-beans, corn, tomatoes, cucumbers, squash; it is only in warm, sandy soils, and in districts not subject to night frosts in spring time, that such things can safely be put out before the

APOTHECARIES HALL, 7 and 9 GEORGE ST., HALIFAX

end of the month. One of the principal marketable crops in Nova Scotia is the potato. It has been found advantageous of late years to plant as early at possible; as soon therefore as the ground is in a fit condition, commit the potato it; see, however, that the eyes of the seed have started into growth, otherwise it will be apt to rot in the cold seed bed. Neglect of this point, which has been urged again and again in the Farmer's Calendar of this Almanac, has caused the loss of countless thousands of dollars to our farmers. So important is the sprouting of seed potatoes before planting regarded in England that the seeds men have instructions thereanent printed on the labels, which they send out with the seed, assuring their customers that this is necessary in order to obtain

a satisfactory crop. In light lands the manure (old and well rotted) may be pleughed in before planting. In heavy soils, put the manure in the drills, so that the warmth of the air may counteract the deadening effect of the cold wet clods. Superphosphate and other artificial fertilizers may also be used.

JUNE.—Planting and sowing will still continue. Corn for ensilage should now be sown. But, while spring operatious have to be continued and finished this month, there are others appertaining more especially to the summer that have to be attended to. Garden crops will require hosing and weeding; potatoes also when sufficiently advanced. It should not be forgotten that we have not only to sow and cultivate, but to protect our crops, if we would gather a profitable barvest. In localities subject to late spring frosts, it is easy to protect early

WOODILL'S LIVER, GOUT and RHEUMATIC PILLS

erops by throwing . The spruce or other brush over them on cold nights method much used in a rance, and which may easily be adopted in this cour is to burn brush to windw "d so as to cover the field in a cloud of smoke. A tion has ofeen been called to such simple and costless devices, and yet year year we hear of the loss of early crops: it is said "by frost;" we should "ry neglect." The Colorado or potito beetle now challenges attention. I green and London purple are undoubtedly efficacious, but they are hone as well as insecticides, and every precaution should be observed in their us farmers, and in their sale by apothecaries and store-keepers. The poison is applied in mixture of ground plaster. Helleboro is also effective and less discontinuations.

Jure Rheumatism, G. A. STERNS, Manuf., 7 & 9 George St.

us, but too expensive where large fields have to be p isoned. As soon as the urrant and gooseberry bushes have pushed out their first leaves and blossoms, t will be found advantageous to give them a sprinkling of white he'lebore rewler in the morning before the dew is off. This will destroy the first crop of urrant worms, and thus preserve the bushes and the fruit crop for the season. The objection to the use of white hellebore on currant bushes (if used early mough in the season) is by no means so strong as to the emplyment of arsenical poisons, as the white hellebore being organic, decays, and is thus speedily endered innocuous, by exposure to rain and air. Summer bedding plants are set out in the flower garden as early this month as the weather will allow; rerbenas may be put out very early, and they thrive better in the moist, cool weather of early June than later, when the soil is apt to be baked by the sun.

Woodill's Pills for Rheumatism, G. A. STERNS, George S

Stocks are also very hardy and rejoice in hot, dry weather, if they are in go soil. Balsams, Phloxes, Petunias, Geraniums, Heliotropes, and other tend things need not be put out so early, as they will make no progress in conventher, and the slightest approach to frost will kill them for the season.

JULY.—This month is especially devoted to the *cultivation* of the various ferrors. Cultivation, in this restricted sense, means the hoeing of crops, stirm by cultivators and harrows, and such like implements, between or over the drift billing up and moulding. The object of these operations are not merely the destroy weeds, as is commonly supposed by many, but to keep the soil open, at thus promote the decomposition of the manure, to enable the soil to retain not be supposed.

ture, allow the free access of air to it, bring it well over and around the roots and stems, and, by those several means, to promote vigorous growth. The sowing of turnips is usually recommended for the month of June, but as the ground has to be remarkably fine for this crop, and as turnips are often put in to fill up land that was originally intended for the earlier sown roots, it frequently happens that turnips have to be sown in July. In fact, if turnips are sown early in June, they are apt to run to seed, instead of forming bulbs. Some even prefer to sow their Swedes early this month instead of June, so as to avoid the well-known "fly" which attacks the young seeding plants, and the soft turnips for immediate feeding need not necessarily be sown till the end of July, although if they get warm, genial weather to start with they do much better earlier. Late sowing while it is apt to give a small yield, ensures excellent quality and freedom from

fibre, so that turnips intended for table use in winter should never be sown early The ground should have undergone a thorough pulverization. Light sandy soil is the best for turnips. They start better after the ground is warm, but the bulbs swell most rapidly during the cold dewy nights in Autumn. The soil cannot be worked too deep. or made too fine, for turnips; the surface soil must be made fine for a seed be 4. Town manures are valuable for this crop, and crushed bones have been applied with best effects, either when covered in the dril's in the manner of ordinary dung, preferably, when sown by machine along with the seeds, so as to be in main ontact with the latter. In many parts of the province, particularly Yas ah, Shelburne, Queens, Digby and Annapolia, the

A SURE CURE for RHEUMATISM are WOODILL'S PILLS.

important operation of hay harvesting will have commenced this month, and on upland will probably be well advanced, or even finished before the end of the month. All other work has to give way to this. If the weather is warm and dull, do not hurry the hay into the barn; put it up in large, well-built cocks, so as to allow it to sweat or ripen before being put up into the mow. When mows are large this is particularly necessary.

AUGUST.—In the northern and eastern counties, and on dyke and intervale land, much hay has, in ordinary seasons, to be taken in during the month of August. Hay making is the most important operation of the Nova Scotia farmer, half of all his land under crop of every kind being occupied with grass destined to be made into hay. More than half a million acres have to be mown

WOODILL'S LIVER, GOUT and RHEUMATIC PILLS

every season, and this necessarily employs for the time a large amount of labour. However, where suitable implements and appliances are used there is now no difficulty in securing the crop. After haying there will be work in top-dressing the hay-fields, and in the garden and orchaid. Where the trees are in grass they will benefit by a rich top-dressing around their roots. Look after the ripening fruit, destroy the caterpillars, if any still remain; pick the early August apples, and send them into a local market or to the picnic. When the rain comes beds of strawberries may be made up. See that the ground is well drained and enriched with old manure. Mushrooms now appear in horse pastures, house flies been me troublesome, and the swallows congregate in flocks and leave us.

Cure Rheumatism, G. A. STERNS, Manuf., 7 & 9 George St.

SEPTEMBER.—Grain has to be harvested. Late in the month Indian corn will have to be cut and put into the siloes. The ensilage forms an excellent supplement to the hay and roots, but ensilage is still used to only a very limited extent. Later in the month, potatoes of the earlier kinds, and earlier planted, will be ready to be taken up, but while the weather remains warm they should be well aired before being put into the cellar, and only in small quantities at a time. The most experienced farmers usually wait for cold weather before taking up their fall crop. The farmer's year is a complete cycle, and before one year's annual harvest is taken in it is needful to be preparing for the next. In fact it is already time, in September, to sow Winter Rye, which is a favorite crop with farmers who have suitable, light, sandy soils. It is also a valuable crop for yielding green feed in the month of May, when it is much required. This is the month

when county agricultural exhibitions should be held, and by holding ruch exhibitions it would stimulate the farmers in the several counties and be feeders for the Annual Provincial Exhibition held in Halifax.

OCTOBER.—The apple crop is yearly acquiring increased importance in Nova Scotia, and our apple orchards are annually extending. But there is still plenty of room, and no farmer who has suitable land, and is willing to take the necessary care, can make a better permanent investment than by planting an orchard. The best market varieties, at least those that appear at the present to be most in favor among our fruit growers in the counties of Kings and Annapolis, where

orcharding is carried on to a great extent, and in a systematic business manner, are: Gravenstein, Yellow Bellefleur, or as it is commonly called here, Bishop's Pippin, King of Tompkins, R. I. Greening, Ribston Pippin, Northern Spy, Vandevere, Golden Russet, Nonpareil and Baldwin. Digby County is at present our cherry county, and Cape Breton has profitable plum orchards, but these fruits may be grown all over the province. Now that the season's work is well nigh over, the young man on the farm may repair to the School of Agriculture and Provincial Farm, Truro, where instruction is given in the art of agriculture and sciences bearing upon it. A post card of inquiry to Prof. Smith, the Provincial Lecturer on Agriculture, will bring full particulars as to the operation and arrangements of the School and Farm and the terms upon which pupils are

Woodill's Pills for Rheumatism, G.A. STERNS, George St.

admitted. No fees are charged, and students are paid for their work on the farm. Students are not boarded on the farm, but can obtain comfortable board and lodging in Truro at very reasonable rates. The School of Agriculture, which is also aided by the Provincial Treasury, is situated at Wolfville, under direction of N. S. Fruit Growers' Association. Here the several gardening operations, propagation of plants and management of orchards are taught.

NOVEMBER.—To ensure the improvement of cattle, every Society keeps or ought to keep a sufficient number of male animals for the use of members. For beef cattle grades of the Short Horn Durham, Polled Angus, Galloway, and Hereford are used. For milk alone, or the cheese factory, Ayrshires are to be pre-

St , Halifax.

ferred. Devons make the best working oxen, are quick, active and easily fed, and soon fatten in the wiid pastures for beef. For domestic cows, and butter making, Guernseys or Jerseys are the most suitable. The Jerseys have been great favorites, and the increase will promote the manufacture of butter, but it threatens to lessen our capacity for beef production. Fall ploughing will be the principal field work this month. After ploughing do not forget to go carefully over the water furrows to make way for the exit of the rain and melting snows that are sure to flood your fields before seed time. A well ploughed, well drained field may be sown in spring as soon as the frost is gone, while one that is irregularly ploughed or has no water furrows, may long remain a puddle, defying every attempt to improve its condition, until the season is so far advanced as to reduce very much the "prospect of a crop. The best part of what is too often left to be "Spring work," can be done in the month of November. At the same time care should be taken not to open up gravelly banks or hilly land, subject to be scoured by the Fall or Spring rains, or melting snows Every season brings loud complaints of the winter-killing of grass in the hay fields. It may possibly be of use to some farmers to say that the winter-killing is merely

Woodill's Pills, by mail, 25c. a box, G. A. Sterns, 7 & 9 Geo. St.

another name for neglect. If a hay field not on a dead level is drained simply by running water furrows with a plough to carry off surface water there will be no winter-killing. Where land is perfectly flat a more effective system of draining must be adopted. The want of the simple water-furrow costs the farmers of this province many thousands of dollars every year, and is often the real cause of the burnt up hay fields that are attributed to drought. Too much importance cannot be laid on fa'l ploughing; it enables farmers to get in larger crops, and much earlier, and the winter action of frosts has a decided tendency to increase the yield.

DECEMBER.—Agricultural improvement is encouraged and promoted in various ways by the Provincial Legislature in aid of Agricultural Societies throughout the Province, with a membership of about six thousand farmers; each society is entitled to draw from the Provincial Treasury an annual grant in

.. Halifax.

Woodill's Pills for Rheumatism, G. A. STERNS, George St

aid to promote its operations. The special purpose of a Society isto improve the live stock of the district, which is accomplished by obtaining and keeping for the use of its members superior male animals, such as bulls, rams and boars. Societies may also, by permission, introduce seeds of new varieties of grain, roots, and also improved in plements, and sell them to members at cost and charges. The whole of the Societies of the Province meet annually on the first Tuesday in November, each in its own district, when the members of each Society receive their Director's report, and elect officers for the ensuing year. Full information as to the method of organizing societies, the grants given in aid, and other particulars, may be obtained on application at the Office of Agriculture, Old Province Building, Halifax. In addition to these organizations there is the Nova Scotia Farmer's Association, which meets once a year with delegates from all the Societies of the Province. A register of thoroughbred cattle is kept at the Office of Agriculture, where blank forms of application for registry can be obtained. The printed Herd Register of Nova Scotia Cattle can be obtained from any bookseller for a dollar.

TARIFF.

Corrected to November, 1897.

Her Majesty by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

In this Act, or in any other Act relating to the Customs, unless the context otherwise requires,

"(a) The initials 'N. E. S.' represent and have the meaning of the words "not elsewhere specified."

(b) The initials, 'N. O. P.' represent and have the meaning of the words not otherwise provided for,

"(c) The expression 'gallon' means an Imperial gallon.
"(d) The expression 'ton' means two thousand pounds avoirdupois.
"(e) The expression 'proof' or 'proof spirits,' when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall, at a temperature of sixty degrees Fahrenheit, have a specific gravity of 0.9198 as compared with that of distilled water of the same temperature.

"(f) The expression 'gauge' when applied to metal sheets or plates or to wire, means the thickness as determined by Stubbs' Standard Guage.
"(q) The expression 'in diameter' when applied to tubing, means the actual

inside diameter measurements.

"(h) The expression 'sheet' when applied to metals, means a plate or sheet not more than three-sixteenths of an inch in thickness."

"(i) The expression "plate" when applied to metals, means a plate or sheet

more than three sixteenths of an inch in thickness.

Nova Scotia Game Laws.

The Nova Scotia Game Society has issued an abstract of the game laws of the Province. Sportsmen would do well to peruse them carefully. They are as follows:

"MOOSE, CARIBOU.

Close season from January 15th to September 15th.

No person shall kill more than two moose and two caribon.

Meat must be taken out within ten days from killing .- Penalty for breach of foregoing provisions, \$50 to \$200.

No person shall have in possession any green hide or fresh meat

from January 20th to September 15th.—Penalty \$25 to \$50. No person shall set any snare or trap for moose or caribou .-

Penalty \$50 to \$100. No person shall hunt moose or caribou with dogs .- Penalty \$50 to

All dogs so hunting may be destroyed by any person.

Close season for American elk or red deer till October 1st. 1904.-Penalty \$50 to \$100.

Provision protecting cow moose, repealed.

Any person bringing moose or caribou meat to Halifax, or any incorporated town, for sale, shall bring neck and forelegs and keep them exposed till all meat is sold. Penalty \$50. Any member or agent of Game Society, game commissioner, police officer or constable is authorized to examine or mark game, and resistance to him is a violation of the law.

Partridge -Close season Dec 1st to Sept. 15th. Woodcock, snipe. teal, blue-winged duck, wood duck: close season March 1st to Sept. 1st, Save in Cape Breton, where close season for all birds except partridge is March 1st to August 20th. Partridge same as in N. S.

No person shall kill woodcock between sunset and sunrise. No

person shall have any bird in possession in close season.

No snare, trap or net shall be used for partridge or any other game bird, at any time.

Any snare for hares or rabbits shall be of "rabbit wire," not

slighter than number 21.

Penalty for breach of prevision as to birds \$5 to \$10 for each bird. Pheasants, spruce partridge, &c .- Unlawful to hunt, kill, or have in possession, phensants, spruce partridge, blackcock, capercailzie or sharp-tailed grouse.—Penalty, \$5 for each spruce partridge, \$25 for each of the other birds. Unlawful to have in possession, buy or sell eggs, or injure or destroy the nests of any native birds.—Penalty \$5 to \$10.

RABBITS, HARES.

Close season from February 1st to October 1st.

No person shall have them in possession from February 5th to October 1st.

No snares shall be set for rabbits or hares in close season.

Clear space of 100 feet must be left between each hedge and the nearest hedge. All snares or hedges unlawfully set may be destroyed. No hedge shall exceed 50 feet in length.—Penalty for each offence, \$5

No person shall hunt or kill at any time any Newfoundland hare

or rabbit .- Penalty \$10.

BEAVER.

No person shall hunt or kill any beaver until after the 1st day of November, A. D. 1900.—Penalty for each offence, \$100.

OTHER FUR-BEARING ANIMALS.

Mink.—Close season March 1st to November 1st. For all other fur-bearing animals, except bear, wolf, loupcervier, wildcat, skunk,

cigar knives. musquash, raccoon, fox, woodchuck, otter and weasel, from April 1st to November 1st.—Penalty, \$5. Unlawful to hunt any of the foregoing animals with dogs between 1st February and 1st October.—Penalty, \$30 to \$80.

LICENSES.

No person not domiciled in Nova Scotia sfall hunt without a license. License fees for birds, hares and rabbits, \$10; all other game, \$30. Licenses may be had at Provincial Secretary's office, Halifax, from all Clerks of Counties and from the Agents of the Game Society in various parts of the Province.

License fee for officers, Army and Navy, on this station, \$5. Such officers if members of Game Society, are not required to take any

license

Penalty for hunting without license, \$50 to \$100, in addition to the license fee.

The hunter, guide or companion of any such person hunting with-

out license, is liable to same fine as the person himself.

Note.—No person shall sell or expose for sale, or buy any animal or bird included in the definition of game until after the lapse of three

days from the end of any close season.—Penalty, \$25.

Whenever a fine is imposed by the game laws, the person fined is liable to imprisonment if the fine is not paid; and judgment may be recovered in the county courts for amount of fine and costs, and may be recorded so as to bind the lands of the defendant.

When he is imprisoned he shall remain in jail one day for each

dollar of the fine.

All the penalties for having game unlawfully in possession, apply whether the game was killed in Nova Scotia or elsewhere.

CAPE BRETON.

Close season for moose and caribou in Cape Breton, till September 15th, 1899.—Penalty, \$200.

EXPORT, BIRDS, ETC.

Unlawful to export from Canada, deer, wild turkey, quail, part-ridge, prairie fowl, woodcock.

F18H.

Salmon.—Close season from August 15th to March 1st, except that salmon may be fished for with the fly alone from February 1st to August 15th. From low water nearest 6 o'clock p. m. of every Saturday, to low water nearest 6 a. m. of every Monday, no one shall fish for salmon in non-tidal waters. In non-tidal waters frequented by salmon, no one shall fish for any kind of fish between 9 o'clock p. m. of every Saturday and 6 o'clock a. m. of the following Monday. Drifting and dipping for salmon is prohibited. The use of nets and other apparatus is confined to tidal waters. Close season in Cape Breton from August 31st to February 1st.

Trout, &c.—Unlawful to fish for or to have in possession any speckled trout (salvelinus fontinalis), lake trout or land locked salmon, between 1st October and 1st April. Unlawful to fish for trout by any other means than angling with hook and line, or to fish through the ice.—Penalty for breach of foregoing provisions, \$20 for each offence.

Explosives - The use of explosives to kill any kind of fish is pro-

hibited under a penalty of \$20.

Bass.—Close season, from 1st March to 1st October, except that Bass may be fished for at all times by angling with hook and line. Bass should not be fished for with any net having meshes of a less size than 6 inches, extension measure, nor by means of seines. Penalty \$20.

Shad and Gaspereaux.—Close season for Shad and Gaspereaux shall be from sunset on Friday evening to sunrise Monday morning in each week. Penalty \$20.

TARIFF.

ad valorem, when imported into Canada, or taken out of warehouse for consumption therein.

The following articles, being the natural product of the manufactures of the colony of Newfoundland, are exempted from Customs duty when imported into Canada, viz.:

Fish and other product of the fisheries.

SHIPS' HERES.

The following list complises the analy articles which may be entered ex-warehouse, free of duty, as simply stores for vessels leaving a Canadian port to a port outside the Dominion on a voyage which is not supposed to last less than 30 days out and home:

The privilege is extended to fishing vessels, when engaged in the

Gulf or deep sea fisheries.

Bread and Biscuits, Butter, Coal for steamers on outward voyage to British or foreign ports, Coffee, Cocoa or Cocoa Faste and Chocolate, Dried or Canned Fruits, Flour and Meal, Lard, Meats salted, dried or canned, Molasses, Rice, Split Peas, Sugar, Syrups, Tea, Vinegar, Coal Oil and Tobacco.

Quantities so entered to be whole packages and carefully proportioned to the length of the voyage, and the number of hands to be supplied, in accordance with the ordinary rate of rations allowed in merchant ships.

ARTICLES PROHIBITED.

The importation of the following articles is prohibited, and any such goods, if imported, shall thereby become forfeited to the Crown, and may be destroyed, and any person importing any such goods, causing or permitting them to be imported, shall for each offence incur a penalty of two hundred dollars.

Goods manufactured or produced wholly or in part by prison labor, or which have been made within or in connection with any prison, jail, or penitentiary. Also, goods similar in character to those produced in such institutions, when sold or offered for sale, by any person, firm or corporation having a contract for the manufacture of such articles in such institution, or by agent of such person, firm or corporation, or when such goods were originally purchased from or transferred by any such contractor.

Oleomargarine, Butterine, or similar substitute for butter.

Books, printed papers, drawings, paintings, prints, photographs or representations of any kind of a treasonable or seditious, or of an immoral or indecent character.

Coin, base or counterfeit.

Reprints of Canadian Copyright Works, and reprints of British Copyright Works, which have been also Copyrighted in Canada.

Tea adulterated with spurious leaf or with exhausted leaf or containing so great an admixture of chemical or other deleterious substances as to make it unfit for use.

EXPORTS PROHIBITED.

The export of Deer, Wild Turkeys and Quail, partridges, prairie fowl, and deock, in the carcase or parts thereof, is hereby declared unlaw: I and prohibited and any person exporting or attempting to export any such article shall, for each anch offence, incur a penal of one hundred dollars, and the article so attempted to be exported shall be forfeited, and may, on reasonable cause of suspicion of intention to export the same, be seized by any officer of the Customs, and if we intention be provided, that this section, shall not apply to the export, under such regulations as aromade by the Governor in Council of any carcasses or part thereof of any deer raised or bred by any person, company or association of persons upon their own lands.

RECIPROCAL TARIFF.

On all the products of countries entitled to the benefits of this Reciprocal Tariff, under the provisions of Section 16, the duties men tioned in Schedule "A" shall be reduced as follows:—

On and after the twenty-third day of April, 1897, until the thirtieth day of June, 1898, inclusive, the reduction shall be in every case one eight of the duty mentioned in Schedule "A," and the duty to be levied, collected and paid shall be seven-eights of the duty mentioned in Schedule "A."

On and after the first day of July, 1898, the reduction shall in every case be one-fourth of the duty mentioned in Scedule "A," and the duty to be levied, collected and paid shall be three-fourths of the duty mentioned in Schedule "A."

Provided, however, that these reductions shall not apply to any of the following articles, but such articles shall in all cases be subject to the duties mentioned in Schedule "A," viz.:—wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol, sugar, molasses and syrups of all kinds, the product of the sugar cane or beet root; tobacco, cigars and cigarettes.

All articles, excepting those enumerated in the last paragraph, being the produce or manufacture of Great Britain and Ireland, and of New South Wales, when imported direct therefrom, are entitled to the benefit of the Reciprocal Treaty. One-eighth until 1st Aug., 1898, to Belgium, Germany. France, Algeria, the French Colonies, Argentine, Austria, Hungary, Bolivia. Columbia. Denmark, Persia, Russia, Sweden, Tunis, Venezuela, and Switzerland as well as Great Britain and Ireland.

FRANCO CANADIAN TREATY.

The Franco-Canadian Treaty went into force on the 14th October, 1895.

It provides, that the advantages granted to France, Algeria, and the French Colonies, shall be extended to Great Britain, to the several British colonies and possessions, as also to the following foreign countries with respect to their commerce with Canada, provided that satisfactory proof of the origin of the article imported is given to Collectors at the time of entry, viz.:—

Argentine, Austria Hungary, Belgium, Bolivia, Chili, Columbia, Costa Rica, Germany (Zollverein, Muscat, Norway, and Sweden, Russia, Salvador, and Spain.

140

estward of

Meagher's Beach, clear the westward of Thrum Cap Shoal. A fog bell on western side lighthouse tower, strikes 7 strokes every minute.

MEAGHER'S BEACH, Sherbrook Tower, east side of entrance to Halifax Harbor, lat 44° 36′ N., lon 63° 32′ 5° W., fixed white catoptric light, visible 12 miles, 58 feet high, building granite with red roof, circular, height 48 feet. When Sambro light bears W. S. W., this light should not be brought to the westward of north, which clears the Thrum Cap Shoal. A fog trumpet sounds blasts of 5 seconds, with intervals of 25 seconds between the blasts.

THRUM CAP BELL BUOY, red iron buoy surmounted by a bell at S. W. extremity of shoal. Eastern entrance to Halifax harbor. Lat 44° 33′ 57″ N, lon 63° 29″ 51 W.

DEVIL'S ISLAND, on south point of Island, at the eastern entrance to Halifax harbor, two fixed white catoptric lights, horizontally, E. ‡ N., and W. ‡ S., 175 yards apart, visible 13 miles, the light E. 59 feet high, W. light 52 feet, both buildings white, octagonal, wood, height E. 53 feet, W. 45 feet, lat 44° 34′ 50″ N., lon 63° 27′ 15″ W. The eastern light opens to southward of western, clears to the southward of the Thrum Cap Shoal. Lifeboat stationed here.

JEDDORE ROCK, on summit of rocks about 22 miles east of Halifax, lat 44° 39′ 45", lon 63° 0′ 22" one fixed red light, visible 12 miles, white, square, wood, dwelling attached, 86 feet high.

Egg Island, centre of island, lat 44° 35′ 20° N., lon 62° 49′ 5° W. catoptric light, a group flashing white or bright light, showing three flashes with intervals of 15 seconds between, followed by an eclipse of 30 seconds, visible 15 miles, 80 feet high, octagonal building, black and white vertical stripes on seaward side, height 45 feet. Visible around horizon. An iron can buoy, painted red, about 200 yards south of the Brig Rock, W. by S. from the light house, about 2 miles. Hand fog-trumpet answers signals.

An automatic whistling buoy, red, is moored in 37 fathoms of water, 5 miles S Mag. from Egg Island Light, lav N. 44° 35′ 20′′, lon W. 62° 49′ 5″′

SHIP HARBOR, on Wolf Point, west side of entrance to Ship Harbor, lat N. 44° 44° 54°, lon. W. 62° 45′ 4°, fixed white dioptric light, 87 feet above the water, visible 15 miles from all points of approach by water. Tower white, square, wood with dwelling attached. First lighted Oct. 1, 1895.

POPE'S HARBOR, on west point of Harbour Island, lat 44° 47′ 40" N. lon 62° 38′ 50" W., fixed red light, catoptric, visible 9 miles, 45 feet high, tower white, square, wood, with dwelling attached, height 37 feet.

SPRY BAY BELL BUOY, Fair way buoy, lat N. 44° 45′ 40″, long W 62° 33′ 20″. Red buoy with "SPRY BAY" in white letters on the deck. Taylor's Head bears N. E. ‡ N. 2 miles, and Maloney Rock bears N. § W. 2 miles.

SHEET ROCK, at the entrance to Sheet Harbor, lat 44° 49′ 55″ N., lon 62° 29′ 23″ W., revolving red light every 40 seconds, visible 10 miles. White, square, wood, with dwelling attached. 75 feet above high water mark. Automatic whistling buoy in 24 fathoms water S by W ½ W 5 and one-sixth miles from Sheet Rock light house.

SHEET HARBOUR PASSAGE, on mainland near eastern end of Sober Island, lat 44° 51′ 30″ N, lon 62° 26′ 33″ W, fixed red catoptric, visible 5 miles. Light shown from window in keeper's dwelling elevated 42 feet above high water. For benefit of vessels navigating Sheet Harbour Passage.

BEAVER ISLAND, S.E. part of East Beaver, or William Island, lat 44° 49′ 34° N, lon 62° 20′ 10° W, a revolving white light showing a flash every 45 seconds, visible 12 miles, 70 feet high, white building with two black balls to leaward, S. S. W., 35 feet high.

Beaver Harbour, on eastern end of Beaver Point, lat 44° 52° 23° N, lon 62° 23′ 40° W. A pole light red lantern on mast with white shed at base: visible 6 miles.

LISCOMB, on island, lat 44° 59′ 20° N., lon 61° 57′ 55° W., red and white catoptric light, alternating every two minutes, visible 15 miles, 64 feet high, white square wooden tower, with dwelling attached.

Wedge Island, mouth of St. Mary's River, lat 45° 0′ 35", lon 61° 52′ 23", one revolving red catoptric light, shows 1 minute in 3 minutes, visible 12 miles, white, square, wood, with dwelling attached, 81 feet high.

Automatic whistling buoy off Isaac's Harbor as a fairway buoy, lat. N. 45° 2' 20° , lat. W. 61° 32' 37° . From the buoy Country Harbor Light, on Green Island N. E. by N. $\frac{7}{8}$ N. Distance $3\frac{37}{4}$ miles. A N. by W. course will lead from the buoy to Ragged Point, distance 9 miles. The buoy is moored in 25 fathoms water, and is painted red, with Isaac Harbor in white letters on the side. Taken up about December and laid in the spring. Lat 45° 2' 20° N, lon 61° 32' 37° W.

HOLLY FOINT, west side of entrance to Isaac's Harbor, lat 45° 10′ 0¹¹ N., lon 61° 39′ 12¹¹W., two fixed white catoptric lights vertically, 20 feet apart, visible 9 miles, 80 feet high, square white building, 20 feet high, with dwelling attached.

COUNTRY HARBUJR, on Green Island, Guysboro' County, lat 45° 6′ 8″ N., lon 61° 32′ 30″ W., fixed white catoptric light, visible 14 miles, 51 feet high, white square wooden building, with dwelling attached, height 28 feet. Coast light, and to guide vessels frequenting Country and Fisherman's Harbors.

Tor Bay, on eastern point of Berry Head, W. side of entrance to Bay, Guysboro' County, lat 45° 11′ 37" N., lon 61° 18′ 35" W., fixed catoptric light, red to seaward, white northward into Bay and towards Molasses Harbor, visible 10 miles, square wooden building, with dwelling attached, white with vertical red stripes, top of lantern painted black. Height of lantern 51 feet, tower 36 feet.

Three Top Island, on the south-east point of Three Top Island' Whitehaven, Guysborough County, Nova Scotia, lat 45° 12′ 40° N., lon 61° 9′ 40′ W. The light is fixed white catoptric, elevated 48 feet above high water mark, and in clear weather should be seen 11 miles. The building is a wooden one painted white, and consists of a square tower 32 feet high from base of building to vane on lantern, with keeper's dwelling attached. This light is for the purpose of guiding vessels into Whitehaven, and in order to point out the dangers on the northern side of the Western Passage is obscured when beari: * to the eastward of N. E. by E. It is visible from all other points of a roach except when intercepted by the high land of Whitehead Island.

WHITEHEAD ISLAND, S. W. extremity of Island, Gu_sboro' County, lat 45° 12° N., lon 61° 8° 15° W., white catoptric light, revolving every 20 seconds, visible 11 miles, 55 feet high, pyramidal wooden building, 35 feet high, with dwelling actached, octagonal lantern. Light not totally obscured during the eclipses; 10 seconds duration of flash, and 10 seconds eclipse.

Life boat stationed at DemingPoint.

CAPE BREAKER BELL BUOY, painted black and surmounted by a bell, is moored in 14 fathoms, 4 cables E. S. E. from the middle of the shoal. From the buoy a N. W. by N. ½ N. course will lead up to, and about half a cable to the eastward of, Man-of-War Rock, distant 2½ miles. Lat 45° 18′ 20" N, lon 60° W, 54′ 0".

Canso Cape, north part of Cranberry Island, lat 45° 19' 45" N., lon-60° 55' 25" W., two fixed white lights in one tower, vertically, 35 feet apart, upper visible 15, lower 12 miles, 89 and 54 feet respectively, high, octagonal wooden building, horizontally striped red and white, with white dwelling house attached. A steam fog whistle, near the light-house, in thick weather sounds a blast of 8 seconds in each minute.

An automatic signal buoy in 20 fathoms, $1\frac{1}{2}$ miles E. S. E. of Grimes Rock, taken up about December, and replaced in the spring. Lat 45° 21′ 13° N, lon 60° 50′ 45° W.

Canso Harbor, on Hart or Cutler Island, lat 45° 20° 47° N., lon 60° 59° 5° W., fixed red catoptric light, visible 12 miles, 42 feet high, white square wooden building, with dwelling attached, height 28 ft. Hand fog horn answers signals from vessels:

Crow Harbor, on Rook Island, Chedabucto Bay, lat 45° 21′ 5" N. lon 61° 16′ W., fixed white dioptric light, visible 8 miles. Square wooden tower with dwelling attached, painted white.

Guysboro' Harbor, W. side of entrance, near Peart Point, Chedabucto Bay, lat 45° 22' 46" N., lon 61° 29' 4" W., fixed white catoptric ight, visible 8 miles, 30 feet high, white square wooden building, heigh t 20 feet.

Sand Point, or Eddy Point, south entrance Gut of Canso, lat 45° 31° 30° N., lon. 61° 14° 40° W., fixed white, dioptric, visible 8 miles, 25 feet high, white square wooden tower, with dwelling attached, black diamond on seaward face,

A black can buoy is moored off the extreme end of Sand Spit.

Point Tupper, Ship Harbor or Port Hawkesbury, lat 45° 36° 30° N, lon 61° 22° W., fixed red catoptric light, visible 7 miles, 54 feet high, white square building, height 34 feet. In consequence of the intervention of the land on the south side, can only be seen three miles in that direction.

CREIGHTON'S HEAD, on the north extremity, lat 45° 30° 40° N., lon 61° 6° 0° W., white catoptric light, revolving every 40 seconds, visible 10 miles, 29 feet high, square white wooden building, height 20 feet. For guiding vessels into Little or West Arichat. Three buoys placed to mark the dangers off the harbor.

Jerseyman Island, Arichat Harbor, lat 45° 30° 20° N., lon 61° 3° 10° W., fixed red catoptric light, visible 11 miles, 39 feet high, white square wooden building, height 28 feet. This light is for the purpose of guiding vessels through Crid Passage, in and out of Arichat Harbor. There is also a Range Beacon on the S. E. Point of Jerseyman's Island, that marks Hautfond Shoal, off the entrance to Arichat Harbor. When the beacon and spire of the Roman Catholic Chapel in Arichat are in range, it leads over the West Part of the shoal in 10 feet of water. Vessels bound into Arichat, Cape Breton, should pass to the west of the shoal or bring the beacon in range of the cupola on the Convent, which stands 130 yards east of the R. C. Church, which will lead in clear of the shoal. Only those well acquainted should pass to the eastward of the shoal, or bring the beacon to bear to the N. of N. E. An Iron Can Buoy painted red has been placed about one cable's length S. W. of the Hautford Shoal in six fathoms of water. The buoy will be placed on or about the 1st of May in each year, and taken up about the 10th December. Hand fog horn answers signals from vessels.

ARICHAT, Marache Point, south entrance to Arichat Harbour, lat 45° 29′ N., lon 61° 1′ 50′ W., fixed white catoptric light, visible 8 miles, 34 feet high, square white wooden building, height 25 feet. Hand fog horn answers signals from vessels.

Petitipe grat, on Mouse Island, south-east of Madame Island, lat 45° 29′ 54″ N., lon 60° 57′ 24″ W., fixed red catoptric light, visible 10 miles, 38 feet high, white square tower, with dwelling attached, height 31 feet.

GREEN ISLAND, summit of Island, lat 45° 28′ 50″ N., lon 60° 53′ 40° W., red and white catoptric light, revolving alternately every 45 seconds, visible 14 miles, 70 feet high, white square wooden building, height 31 feet. Light, centre of keeper's dwelling. Visible around horizon.

Cape La Ronde, west side of entrance to St. Peter's Bay, lat 45° 34′ 45″ N., lon 60° 53″ W., fixed white catoptric light, visible 14 miles, 92 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels into St. Peter's Bay.

Grande Digue, on beach, near wharf, Lennox Passage, lat 45° 35′ 51 N, lon 61° 1′ 5° W, fixed red dioptric light, 30 feet above high water mark, visible 5 miles, lantern on mast with white shed at base. Building 25 feet high. Seal on Dog Island, Lennox Passage, lat 45° 35′ 31° N, lon 61° 4′ 0° W, fixed red dioptric light, 34 feet above high water mark, visible 5 miles, lantern on mast with white shed at base.

GLASGOW POINT—On N. W. extremety of Madam Island western entrance to Lennox Passage, Lat N 45° 34′ 0°, lon W. 61° 7′ 50°. Fixed red dioptric, 65 feet high visible 8 miles. Tower square white with dwelling attached. Iron lantern painted red, 32 feet base to vane.

Note. -The Pole Lights in St. Peter's Inlet are the same as above.

OUETIQUE ISLAND, on south point, lat 45° 36′ 40″ N., lon 60° 57′ 15″ W., fixed red catoptric light, visible 9 miles, 78 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels through Lennox Passage.

JEROME POINT, east side of St. Peter's Bay, near Canal, lat 45° 39' 5" N., lon 60° 52' W., a fixed red light, visible 8 miles. Square wooden tower, with dwelling attached, 40 ft. high, painted white. Hand horn answers signals from vessels

Saint Espert Island, east end, lat 45° 36′ 30′ N., lon 60° 29′ 10′ W., one revolving white catoptric light, flash at intervals of 30 seconds, building white, with two red bands, square, wood, with dwelling attached. Height of building 55 feet, of light 78 feet. Bad Neighbor Shoal, S.W. 3 W. 12 mile from this light is not more than 12 feet below water.

A Bell Buoy off Fourche Head; taken in about December.

Guion Islamb, about 230 yards from west end of Island, lat 45° 40. 10" N., lon 60° 6' 30" W., red revolving light, catoptric, attains acgreatest brilliancy every 30 seconds, visible 12 miles, 74 feet high, tower white, square, with dwelling attached, height 54 feet.

Gabarus, on Harbour Point, southern thore of Gabarus Bay, Lat N. (5 = 59' 40", Lon W 60° 8' 30", fixed red. dioptric, 47 ft. above water, visible 8 miles. Wooden hexagonal tower white, iron lantern red. Base to yame, 32 feet.

LOUISBURG, north side of entrance to harbor, 120 yards inshore of point, lat 45° 54° 35″ N., lon 59° 57′ 15″ W., fixed white catoptric light, visible 16 miles, 85 feet high, building white, with a black vertical stripe on each side of dwelling, height 35 feet.

LOUISBURG RANGE LIGHTS.--It is proposed to establish two small towers for range lights to lead in through deepest water in the channel. They will be built on the low land, N. 67° W from the entrance.

NAG ROCK. Louisburg Harbor.—A conical iron buoy, painted red, is moored in 30 feet water, on the W extremety of the shoal extending from Nag Rock to mark the turn in the deepest channel.

The two red spar buoys marking the shoaler water channel off Nag Rock, are distinctively marked as follows:—The outer or more southerly buoy has a cone shaped top mark, and the second or more northerly buoy has a spherical top mark.

A bell buoy is placed at the entrance to Louisburg harbor; it is black with "Louisbourg" in white letters on the deck; moored in 13 fathoms, and is $1\frac{1}{2}$ cables east from centre of harbor shoal. Lat N. 45° 54' 13", lon W. 59° 56' 30". From the buoy, light bears N. W. by N $\frac{1}{2}$ N six-tenths of a mile. Leaving the buoy $\frac{1}{2}$ cable on the port hand, a N W by W. course will lead in through mid-channel.

LOUISBURG Automatic Whistling Buoy, in 36 fatioms water, 3 miles S. E. by S. ½ S. from Louisburg lighthouse, lat N. 45°52′43°, lon W. 59°53′44°. From the buoy a N. W. by N. ½ N. course leads direct for the lighthouse and will bring a vesse! to the Bell Buoy, which she should round, leaving it on the port hand.

An Automatic Signal Buoy in 30 fathoms 15 miles S. E. ‡ E. from light-house. From this buoy a course N. W. by W. will clear the Broad Shoal, and lead to the fairway of Louisburg Harbor. Taken up about December.

MAINADIEU, on south side of west point of Scatterie Island, lat 46° 0′ 30″ N., lon 59° 47′ 30″ W., fixed red catoptric light, 90 feet high, white square wooden building, height 40 feet, visible 10 miles.

Scattarie, north-east point of Trap Rock, lat 46° 2′ 15″ N., lon 59° 40′ 15″ W., white catoptric revolving light, visible a minute, eclipsed half a minute, visible 15 miles, 90 feet high, white octagonal building, height 70 feet. The light should never be brought to bear to eastward of N. N. E., or to southward of S. S. W., nor approached nearer than 1½ mile. Life boat is stationed here.

Fog Whistle near the light-house. Sounds two blasts of 5 seconds, with interval of 10 seconds, in every minute.

Cow BAY.-Light discontinued.

FLINT ISLAND, on island, lat 46° 11′ N., lon 59° 45′ 55 W., white, catoptric light, revolving every 15 seconds, visible 12 miles, 65 feet high, white octagonal building, height 43 feet. Visible around horizon.

LINGAN HEAD, north side of entrance to Bridgeport Harbor, lat 46, 14'10" N., lon 60° 2' 10' W., fixed red catoptric light, visible 10 miles 50 feet high, white square wooden building, height 20 feet. For guiding vessels into Bridgeport Harbor.

low Point, Flat Point, east side of Spanish Bay, Sydney Harbour, lat 46° 16′ 20′ N., lon 60° 7′ 16″ W., fixed white catoptric light, visible 14 miles. To feet high, building octagonal, red and white vertical stripes, height 51 feet. Marine Telegraph and Signal Station.

SYDNEY BAR, on west end of South Bar, lat 46° 12′ 26″ N., lon 60° 12 5.1 W., fixed red catoptric light, visible 10 miles, 30 feet high, white square wooden building, height 20 feet.

CRANBERRY HEAD, fog horn, on northern side of Spanish Bay, entrance to Sydney Harbour, lat 46° 15′ 53″ N. lon 66° 12′ 7″ W. A steam fog trumpet sounds a blast of ten seconds duration every minute.

Point Acont, on high cape, north side of entrance to Little Bras d'Or, lat 46° 19′ 30′′ N., lon 60° 17′ 10′′ W., fixed red catoptric light, visible 11 miles, 91 feet high, square white wooden building, with dwelling attached, height 20 feet. For guiding vessels into Little Bras d'Or.

Point Aconi Buoy, lat N. 46° 21 0°, lat. W. 60° 16′ 27°. An iron can buoy painted black with Point Aconi in white letters on top is moored in 7 fathoms water, 3 mile E, by N. ½ N. from the extreme of

Point Aconi,

BLACK ROCK POINT, south side of entrance to Big Bras d'Or, lat 46° 18′ 30″ N., lon 60° 23′ 20″ W., fixed white catoptric light, 45 feet high white square building, height 23 feet. White cross on red ground-Visible 12 miles.

Carey's Beach, N side of entrance to Big Bras d'Or, 46° 17′ 45" N., lon 60° 25′ 0" W. Pole light red. Visible 5 miles.

McNeil Beach, Big Bras d'Or, a pole light. Red. Visible 5 miles-McKenzie's Point, N. side of Bras d'Or Lake, about 2 miles S. W. of Port Bevis, lat 46° 7′ 15″ N., lon 60° 39′ W., fixed white catoptric light, visible 14 miles, 95 feet high, square white wooden tower. For guiding vessels through Bras d'Or Lake.

Kidston Island, on N. E. Point, at entrance to Baddeck Harbor, N. side of Bras d'Or Lake, lat 46° 5′ 58″N., lon 60° 44′ 20″ W., fixed red catoptric light, visible 7 miles, 31 feet high, square, wooden building, white.

LITTLE NARROWS, eastern entrance, lat 46° 0′ 0″ lon 60° 58′ 25″ One fixed white light, visible 10 miles, white, square, wood, 35 feet high.

Catoptric

"Whycocomagh," on Fraser's Point, north side of St. Patrick's Channel, lat 45° 57′ 57″ N., l m 61° 4′ 30″ W., fixed red light, shown from a dioptric lantern, hoisted on a mast 25 feet high, with a shed painted white at its base, visible 5 miles.

GILLIS POINT, on N side Little Bras d'Or Lake, and W side of entrance to Boulacut Harbour, lat 46° 1′ 32″ N., lon 60° 40′ 18″ W., dioptric, fixed, white, 74 feet above water, visible 12 miles, building

wood, square, tower, dwelling attached.

Geand Narrows, Railway bridge with swing has been erected. Red light will show up and down Channel when swing is closed, green when open. Lat 45–57′42″ N, lon 60° 47′33″ W. A white light is also shown, directly over the red and green lights, from a lens lantern hoisted on the bridge frame, visible 7 miles.

PIPERS COVE, on western bend of Derby Point, Grand Narrows, lat 45° 56′ 30° N, lon 60° 47′ 46°W, fixed red dioptric light, 77 feet above high water mark, visible 11 miles, white square wood. Building 38 feet high.

CAMPBELL ISLAND, on east side of I.. N side of entrance to McKinnon Harbour, lat 45° 54′ 46° N, lon 60° 55′ 54° W, fixed white light.

CLAPT'S COVE, on side of cove, N side of West Bay, lat 45 49' 60° N, lon Clapt's 55° W. fired red light.

RED Isassess, on V.cKenzie Peint, S. shore Great Bras d'Or Lake, lat 45' 47' 32 S, lon 60' 44' 40' W. Fixed red dioptric light, 47 feet, visible 8 miles with the supplies and wood fower 37 feet high.

CATE CHECKER, South sale of Bras d'Or Lake, west side of entrance to St. Peter's calet, sat 45° 44′ 28″ N., lon 60° 48′ 20″ W., fixed white catoptric "ght tish a 10 miles, to feet high, white square wooden building, a mid 30° to To guide vessels through St. Peter's Inlet. A hand fog-hold uswers sugas from vessels.

BEAVER ISLAND, on S. E. point of island, lat 45° 40′ 40° N, 60° 49′ 47° W, fixed red dioptric light, 30 feet above high water mark, visible 5 miles, lantern on mast, 25 feet high, with white shed at base.

GOOSEBERRY ISLAND OR MARJORIES ISLE, W. from Sindy's Point, lat 45° 40′ 7° N, lat 60° 51′ 1° W, fixed red dioptric light, 31 feet above high water mark, visible 5 miles, lantern on mast 25 feet high, with white shed at base.

CLARKE'S COVE, N. side West Bay, Bras d'Or Lake, lat 45° 49′ 40″ N., lon 61° 1′ 55″ W. Red pole light on mainland facing entrance to channel. The light run for on a N. W. course leads clear of three out-ying shoals, which are marked by spar buoys.

McKinnon's Harbour, a pole light, white on Campbell's Island, western side entrance to McKinnon's Harbor.

BIRDISLAND, Ciboux Island, ½ mile from N. end, lat 46° 23′ 10″ N., lon 60° 22′ 30″ W., red catoptric light, revolving every minute, visible 16 miles, 77 feet high, white octagonal building, height 33 feet.

St. Ann's Harbor, on south point of Beach, lat 46° 17′ 45″ N., lon 60° 32′ 25″ W., fixed white catoptric light, visible 8 miles, 41 feet high, white building, height 38 feet. The light exhibited to guide through entrance

Ingonish Harbour, on beach southern side of entrance to harbour, lat 46° 38′ 10° N, lon 60° 23′ 12° W. Light fixed red dioptric, visible 9 miles, elevated 45 feet above high water. Building square tower, white, 38 feet from base to vane. To mark entrance.

Ingonish, on Island, lat $46^{\circ}41'20$ N"., $100^{\circ}60^{\circ}20'10^{\circ}$ W., fixed white light, visible 20 miles, 237 feet high, white square building, height 40 feet.

CAPE NORTH, on Money Point, 3 mile S. E. from Money Point, lat 47° 1′ 45″ N., lon 60° 23′ 15″ W., red and white catoptric light, revolving every 45 seconds visible 15 miles, 74 feet high, square white wooden building, height 26 feet. Coast light makes a complete revolution every 1½ minute.

CAPE ST. LAWRENCE—Lat N 47° 2′ 55° Long W 60° 35′ 10″, 2 fixed white dioptric lights vertical, 42 feet apart. Upper light in lantern 137 feet above high water, visible 17 miles. Lower light on lower floor of tower, 95 feet above high water, visible 15 miles. Building square wooden tower, with dwelling attached, painted white. 56 feet from base to vane on lantern.

CAVEAU POINT RANGE LIGHTS, Eastern Harbour, Cheticamp. Two small towers for Range Lights, are in caurse of construction on Caveau point, eastern side of entrance to Eastern Harbor. These lights, which will be fixed white, are to be run for in range until the two range lights at head of harbour are brought in range.

CHETICAMP, Eastern Harbor, Range light, lat 46° 38′ 15″ N., lon 61 0′ 25″ W. Front light, red, 45 feet above high water, 60 feet back from edge of land. Back light, 330 yards S by W, ‡ W from front light, 60 feet above high water; colour white. Both lights shown from white square towers, and kept in range will lead through dredged channel.

CHETICAMP, near south end Island, lat 46° 36′ 20″ N lon 61° 3′ 10″ W., white catoptric light, revolving every 45 seconds, visible 20 miles, 149 feet high, white square wooden building, height 24 feet.

St. Paul's Island, on rock off N. E. point of island, lat 47° 13′ 50″ Note 100 60° 8′ 20″ W., fixed white light, dioptric, third order, visible 20 miles, 140 feet high, white octagonal building, height 40 feet. Obscured between N. by E. & E. and E. N. E.

LIGHT HOUSES.

St. Paul's Island, S. W. point of island, lat 47° 11′ 20″ N., lon 60° 9′ 40′ W., white dioptric light, third order, revolving every minute, visible 20 miles, 140 feet high, white octagonal building, 40 feet high. Obscured when bearing from S. S. E. to W. ½ N. A fog whistle on the S. E. side of the island, S. W. of Atlantic Cove, about half a mile from the Humane Establishment, sounds once for five seconds in each minute during thick weather and storms.

MARGAREE HARBOUR, on outer end of breakwater pier, lat 46° 26′ N., lon 61° 6′ 40° W., seaward light fixed red, white light eastern and western sides lantern, visible 7 miles, 29 feet high, square white building.

MARCAREE, summit or middle of Sea Wolf Island, lat 46° 21′ 30″ N., lon 61° 15′ 30″ W., fixed white catoptric light, visible 21 miles, 298 feet high, square white building. To vessels in dangerous proximity to the island the light may become obscured by the abrupt cliffs on the sides of the island.

at the entrance to harbor, leads through the channel up to the bar. Lat 45° 41′ 0′′ N, lon 62° 42′ 0′′ W.

Pictou Harbour Range.—Two lights in separate towers on northern side of entrance to harbour, inside of western end of London Beach, to guide vessels through the channel clear of the bar shoals. Lat N. 45° 41′ 50°, lon 62° 40′ 15°. Front light, square white tower 30 feet high, 60° feet back from the shore, fixed red catoptric, 66 feet above high water mark. The back tower is 384 feet N. W. by W. ‡ W. from the front lower, and is 38 feet high. The light is fixed red catoptric, 7° feet above high water mark, visible 8 miles. These towers have replaced the Pole Lights formerly in use. Both are painted white.

Vessels entering keep the Picton Bor and Custom House lights in one W. 4 N. until reaching the alignment of Fras. r's farm range which they should keep N. W. by W. 4 W. until the Bar light is nearly abeam, when a W. 2 S. course will lead to safe anchorage in the harbour.

CARIBOU ISLAND, north-east part of Island, lat 45° 46′ 15" N., lon 62° 40′ 20″ W., white catoptric light, revolving every minute, visible 10 miles, 35 feet high, white square building, height 26 feet.

AMET ISLAND, centre of island, Northumberland Straits, lat 45° 50′ 15″ N., lon 63° 10′ 20″ W., fixed white catoptric light, visible 10 miles, 44 feet high, white square wooden building, height 26 feet. Visible around horizon.

MULLIN'S POINT, range lights, north side of entrance to Wallace Harbor, Cumberland County, lat 45° 49′ 45″ N.. lon 63° 25′ 5″ W., fixed catoptric white, light visible 11 miles, 39 feet high, white square wood building, height 25 feet. Inner red light shown from a lighthous built summer of 1894, standing 1473 feet N W. 3 W. from the front range light. Two lights in one, form a range to lead across bar, and in channel up to Mullin's Point.

A can buoy marks entrance to channel, and two fairway buoys.

Pugwash, in harbor, lat 45° 52′ 30″ N., lon 63° 40′ 20″ W., fixed catoptric light, red seaward, white towards harbor, visible 8 miles, 48 feet high, white square building, height 44 feet. Black buoys to be left on port hand, and red on starboard when entering the harbor.

COLD Spring Head—Lat N 45" 58' 5" Long 63° 51' 50" white square tower, iron lantern red, height base to vane, 36 feet Light fixed white, 60 feet, visible 13 miles, dioptric.

WEST FROM HALIFAX

HERRING COVE, Western Head, lat N. 44° 33′ 57", lonW. 63° 32′ 58", fixed red, square white tower, 22 feet from base to vane on lantern. Fixed red 45 feet above high water. Visible 8 miles.

HERRING COVE Life boat stationed here.

Chebucto Head, west side of entrance to Halifax Harbor, lat 44° 30′ 4″ N., lon 63° 30′ 50″ W., white light, revolving every minute, visible 18 miles, 132 feet high, white square wooden building, height 22 feet.

A steam fog whistle sounds blasts of 10 seconds duration, with an interval of 50 seconds between.

An Automatic Whistling Buoy, painted red, placed in lat 44° 31′ 40′′ N., lon 63° 30′ 2′′ W., in 20 fathoms of water, N. E. 1 nine-tenth miles from Chebucto Head lighthouse. From the buoy Chebucto Head light-house bears S. W. 1 mile 9 cables; Sandwich Point, bears N. ½ W., 3 miles 8 cables; Devils Island west light-house, bears N. E. $^{\downarrow}$ E., 3 miles 5½ cables. Passing to the westward of the buoy at the

distance of half a cable and steering a N. course magnetic, will lead up the harbor to the eastward of the Neverfail Shoal, and at a distance of two cables to the westward of Meagher's Beach light-house.

distance of two cables to the westwardof Meagher's Beach light-house, A similar buoy, painted black, in lat 44 28 25" N., lon 63° 22' 10" W., in 36 fathoms, from this buoy Sambro Island light bears W. \(\frac{1}{3}\), N. 8\(\frac{1}{3}\) miles. Devil's Island light N. \(\frac{7}{3}\) W. 7\(\frac{1}{3}\) miles, and the inner automatic buoy N. W. \(\frac{1}{3}\) N. 6 miles.

Sambro Automatic Whistling Buoy, in 25 fathoms, near S. end of Sambro Outer Bank—Painted black, and white vertical stripes. From the buoy Pennant Point bears N. W. by N. $\frac{1}{8}$ N., $7\frac{1}{2}$ miles. Sambro Light, N. $\frac{1}{2}$ W., $5\frac{1}{4}$ miles—Chebucto Light, N. by E., $\frac{5}{8}$ E, $8\frac{1}{2}$ miles. Lat N 44° 21' 30'', lon W. 63° 30' 15''.

The Portuguese Buoy is colored red and black horizontally; the Rockhead Buoy black and white vertically. An Iron Spar Buoy painted red and black horizontal bands, 1½ cable S. from 4½ fathom line of Neverfail shoal. The other buoys of Halifax Harbor are colored red on the starboard hand and black on the port hand, entering the harbor.

DUNCAN'S COVE Life boat station near Chebucto Head Light.

Sambro, middle of Island, lat 44° 26′ 10 N., lon 63° 33′ 28′′ W., fixed white dioptric 2nd order, visible 16 miles, 115 feet high, building white, octagonal, 60 feet high. The steam fog whistle has been replaced since the 10th June, 1891, by explosive bombs, fired every 20 minutes.

A Bell Buoy, painted black, placed in 22 fathoms water, S. E. by E. mile from the Blind Sister.

I am Can Buoy has been placed off the S.W. Breaker, Sambro, wooden spars on the Pollocks, on the Whippey Shoal, Stapleton, Morris Point. Bell Rock, and Duncan's Reef, near Sambro.

SHIPLEY HEAD, Terrance Bay, lat 44° 27′ 40°, lon 63° 42′ 10°, fixed red, on mast, 55 feet high, visible 7 miles.

BETTY'S ISLAND, on Brig Point, near Prospect, lat 44° 26′ 22″ N., lon 63° 45′ 54″ W., revolving red catoptric light, greatest brilliancy every two minutes, 75 feet him, visible 14 miles, building white, with two horizontal red bands, square, wood, height 54 feet, dwelling attached. Coast light.

tı

Dover, on southern end of Callaghan Island, lat N. 44° 29′ 34″, lon W. 65° 51′ 33″, fixed white dioptric, 50 feet high, visible 12 miles. White square tower with dwelling attached. A red can buoy on western side of Shag Bay breakers, to guide into Dover Harbor.

PERCY POINT, east side of entrance to St. Margaret's Bay, lat 44° 29' 30' N., lon 63° 55' W., fixed red catoptric light, 65 feet high, building where, square, 26 feet high. Lantern on dwelling. Visible 8 miles.

CROUCHER'S IMAND, on south point of island, in St. Margaret's Buy, lat 41° 38° 24", lon 63° 57' 20", fixed white light, visible 15 miles, square tower, 40 feet high, with dwelling attached, painted white.

MARGARET'S BAY, on Green Island, Lunenburg County, lat 44° 22′ 57″ N., lon 67° 2′ 45″ W., red and white catoptric light revolving alternately every one and shalf minutes, building white, square, wood, 66 feet above water, with swelling attached. Crast light.

NORTH EAST SHOAL, AUTOMATIC WHISTLING BOOY. 2 m'les E. by N. 3 N. from N. E. Shoal, off Green Island, between Margaret's Bay and Mahone Bay, lat N. 44 25 54", lon W. 61 0 2". Buoy painted black with "N. E. Shoal" in white letters — ored in 21 fathoms. From the buoy a N. W. 3 N. course will 1 id into Mahone Bay, and N. E. by N. 3 N. will lead into St. Margaret's P.

Chester, E., Ironbound Island, a little to the eastward of centre of island, in Mahone Bay, lat 44° 26′ 20″ N., lon 64° 4′ 50″ W., fixed white dioptric light, visible 16 miles, 150 feet high, white oblong tower on dwelling, 46 feet high, wood, lantern. Seen from all points of approach. The lantern alone is visible, building hidden by trees.

GREEN ISLAND, off St. Margaret's and Mahone Bay, lat 44° 22′ 57″ N., lon 64° 2′ 45″, alternate red and white, white square wood with dwelling attached.

QUAKER ISLAND, on highest part of island, lat 44° 30′ 55″, lon 64° 13' 48", fixed red light, 109 feet high, visible 11 miles. Square tower, 35 feet high, with dwelling attached, painted white. To guide into Chester Basin. Hand fog horn answers signals from vessels.

Hobson's Nose, Mahone Bay, lat 44° 24′ 55″ N., lon 64° 13′ 46″W., red fixed dioptric light, visible 8 miles, 63 feet high, building white, square, wood, 29 feet high.

Westhaver's Island, Mahone Bay, lat 44° 26′ 15″, lon 64° 20′12″, Fixed white, dioptric 54 feet high, visible 12 miles. White square tower 27 feet high, with dwelling attached.

Cross Island, east point Lunenburg Bay, lat 44° 18′ 45" N., lon 64° 9′ 57" W., 2 white catoptric lights vertical, 35 feet apart, upper intermittent revolving every minute, and visible 14 miles, 100 feet high, lower fixed, visible 6 miles, and 65 feet high, building red, octagonal base, height 58 feet. Pilots resort here, and vessels may take refuge in case of necessity. Upper bright 45 seconds, dark 15 seconds. A fog trumpet sounds 10 seconds every 11 minutes.

BATTERY POINT, Lunenburg, lat 44° 21'45" N., lon 64° 17' 35" W., fixed red catoptric light, visible 8 miles, 50 feet high, white, square tower on dwelling, height 24 feet. This harbor is easy of access, buoys are placed in the bay and entrance to harbor on Ovens Reef, Sculpin Rock, Haddock Shoal, Battery Point Shoal, and Head Shoal. Hand fog trumpet answers signals from vessels.

LUNENBURG FAIRWAY AUTOMATIC WHISTLING BUOY, off western entrance to Lunenburg Bay. Red and black horizontal stripes From the buoy Battery Point Light bears N. W. by N. \$\frac{3}{4}\$ N 6\frac{1}{2}\$ miles; Cross Island Light N. E. \$\frac{3}{4}\$ E., 2 miles; West Ironbound Light, S. W. by W. \$\frac{3}{4}\$ W. 4\frac{1}{3}\$ miles; and Rose Point N. W. \$\frac{1}{2}\$ W., 1\$\frac{3}{4}\$ miles; lat N. 44° 17′ 0″, lon W. 64° 11′ 25″

WEST IRONBOUND ISLAND, near Cape LaHave, mouth of LaHave River, lat 44° 13′ 42″ N., lon 64° 16′ 20′ W., white catoptric light, revolving every 30 seconds, visible 13 miles, 72 feet high, building white, square, with dwelling attached, height 29 feet. Near edge of cliff 40 feet high.

LaHave Bell Buoy, painted red, off LaHave River, in 22 fathoms water. 3 miles S. by E. from Moser's Island Light, and 2½ miles S. S. W. from Ironbound Light; lat 44° 17′ 16″ N., lon 64° 20′ 55″ W

Lahave, on Fort Point, lat 44° 17′ 20″ N., lon 64° 21′ W., fixed red catoptric light, visible 8 miles, 48 feet high, building white, square, wood, with dwelling attached, height 35 feet.

Mosher's Island, on island, west side of entrance to LaHave River, lat 44° 14′ 15" N., lon 64° 18′ 50" W., fixed red catoptric light, visible 8 miles, 55 feet high, building white, square, height 26 feet. Hand fog-trumpet answers signals.

LIGHT HOUSES.

MEDWAY HEAD, Port Medway, west side of entrance, lat 44° 6 10" N. lon 64° 32′ 15" W., fixed white catoptric light, visible 10 miles, 44 feet high, building white, square, with black square seaward, height 23 feet. Lake a dwelling house. Spar Buoys are placed in the channel to Port Medway Harbor, on the breaking ledges, Nautilus Rock, corner ground and edge of flats off Bang's Point. In passing in from seaward the red buoys must be left on the starboard, and the black buoys on the port

hand. A Bell Buoy, † mile S. W. of the S. W. Breaker, to be left on starboard hand entering. A N. 1 E. course leads up to Can Buoy off eastern point of flats inside McNeil's Point, distant 27 miles. Lat. N.

44 ' 5' 0'', lon W. 64 ' 31' 15''.

COFFIN's ISLAND, south point Liverpool Bay, lat 44°1′ 55" N., lon 64° 37' 32" W., white catoptric light, revolving every two minutes, light 30 seconds, dark 90 seconds, visible 16 miles, 65 feet high, building octagonal, horizontal stripes, red and white, eight in number, height 50 feet.

An Automatic Buoy, in 20 fathoms, striped vertically black and white, S. † W., 1 11-16 miles from Coffin's Island light-house. Lat N 44° 0′ 20″, lon W. 64° 36′ 55″.

BROOKLYN PIER, Pole light, green on outer end of wrecked pier, 30 teet above high water, visible 4 miles, 220 feet from shore and 500 feet from submerged extremity of pier; lat 44° 2' 45" N, lon 64° 41' 20" W.

LIVERPOOL WHISTLING BUOY, lat 44° 0' 20" N., lon 64° 36' 55 W. iron buoy painted white and black, vertical strips. urm ounted by 10-in. fog signal whistle, whistle sounded by action of waves From the buoy Coffin Island Light bears N. ‡ E. 1 11/16 miles. Fort Point light N. W. ‡ N. and Western Head W. ‡ S., 2½ m les. From buoy a course N. W. ‡ N. for 4 miles clears all danger to anchorage off Brooklyn Pier. An iron can buoy, red, has been moored outside of submerged end of pier.

FORT POINT, Liverpool Bay, south entrance, lat 44° 2′ 35" N., lon 64° 42′ 20" W., fixed red catoptric light, visible 7 miles, 30 feet high, building white, square, height 17 feet. Left on port side when entering

PORT MOUTON, north-east point of Spectacle Island, Queen's Countylat 43° 55′ 5″ N., lon 64° 48′ 5″ W., fixed red catoptric light, visible 11 miles, 47 feet high, square wooden building, height 20 feet. For guiding vessels into harbor.

PORT MOUTON ISLAND, Life boat stationed at eastern end.

LITTLE HOPE, Queen's Co., nearly on centre of island, lat 43° 48′ 30″ N., lon 64° 47′ 15″ W., white catoptric light, showing three flashe with intervals of 10 seconds between their points of greatest brilliancy, followed by an interval of 30 seconds, complete revolution in 50 seconds, visible 12 miles, 43 feet high, square white building, height 26 feet. Centre of keeper's dwelling, visible around horizon. A mechanical hand fog trumpet will be sounded in answer to a steamer whistle or vessel's fog trumpet in thick weather.

Shingle Point, east side of Port L'Hebert Harbor, lat 43° 48′ 40″ N., lon 64° 55′ 23″ W., fixed red catoptric light, visible 10 miles, 33 feet high, white square wooden building, height 29 feet.

Carter's Island, Ragged Island Harbor, lat 43° 42′ 15" N., lon 65° 6' 00' W., fixed red light dioptric, visible 11 miles, 66 feet high, white wooden building, height 29 feet.

RAGGED ISLAND, Gull Rock, lat 43° 39′ 12″ N., lon 65° 5′ 50″ W., fixed white catoptric light, visible 10 miles, 56 feet high, white square wooden building, height 31 feet. Hand fog trumpet answers signals.

An Automatic Whistling Buoy, as a Fairway Buoy, is moored off the approach to Ragged Island harbor, lat. N. 43° 37′ 28″, lon. W 65° 1′ 44″. From the buoy a N. N. W. course will lead about midway between the 4½ fathom patch and the Blow Breaker up to the southern end of Cranberry Island. The buoy is painted red with letter L in white.

Bull Rock, an Iron Can Buoy with cage, painted black, has been placed in 10 fathoms water S. S. W. ½ W., about 150 yards from the Bull Rock, off Western Head, Shelburne County.

FARM LEDGE, Iron can buoy, red, 200 yards S of Ledge.

EASTERN BULL, red spar buoy.

BLACK POINT BREAKER, red spar buoy.

SAND SPIT, at east side of entrance to Shelburne Harbor, lat 43° 41′ 25″ N., lon 65° 19′ 28″ W., fixed red catoptric light, visible 11 miles, 47 feet high, white square wooden building, height 44 feet. Built on a pier.

Shelburne Harbor.—A red Iron Can Buoy has been placed in 4½ fathoms, on west side of Middle Rock Shoal; a red Can Buoy off extreme of Sand Spit, in four fathoms, and a black Spar Buoy on east end of Adamant Shoal.

Cape Roseway, near south-east point of MacNutt's Island, Shelburne harbor, lat 43° 37′ 15″ N., lon 65° 15′ 45″W., two white catoptric lights, vertical, 55 feet apart, upper light visible 18 miles, and 120 feet high, lower 65 feet and visible 12 miles, octagonal building, vertical black and white stripes, height 77 feet.

CAPE ROSEWAY, fog trumpet near the light house sounds a blast of 10 seconds duration with an interval of 110 seconds between the blasts.

A black Can Buoy S. S. E. from the Jig Rocks, in 9 fathoms water.

Negro Island, on north side, lat 43° 30′ 54″ N., lon 65° 20′ 58″ W. red and white catoptric light, revolving every minute, visible 12 miles, 60 feet high, white square wooden tower with keeper's dwelling attached, height 44 feet. For guiding vessels in and out of Clyde River or Negro Harbor.

BLANCHE, Life boat station.

PORT LA TOUR, eastern end Page's Island, Lat N 43° 29′ 27″ Long W 65° 27′04″ Fixed white light, dioptric, 46 feet high, visible 12 miles. Tower square, wood, with kitchen, all white, iron lantern, red. Tower, base to vane 34 feet.

Baccaro, on east side of entrance to Barrington Harbor, lat 43° 26′ 54″ N., lon 65° 28′ 12″ W., fixed red catoptric light, visible 10 miles, 49 feet high, white square building, with black ball seaward, height 35 feet. An automatic Whistling Buoy red is placed off the "Bantam," ‡ mile S. W. of ledge.

Barrington E. Bay Lightship, lat 43° 31′ 5″ N., lon 65° 34′ 25″ W., two lights vertical. 20 feet apart, upper white, visible 12 miles, lower red, visible 6 miles, hull and spars painted red, with word "Barrington" in white letters on both sides. Height, white 41 feet, red 20 feet. Moored in 6 fathoms at low water. Wesses' Ledge bearing S. W. by W. ½ W., distant § mile, Baccaro Light bearing S. S. E. ¾ E., distant 6 and 3-16 miles, and Bantam Rocks, bearing S. by E. ½ E., distant 6½ miles. To guide vessels into Barrington East Bay, and through Barrington Passage. A hand fog trumpet sounded in answer to signals.

In passing through Barrington Pass to the westward, the dangers to be left on starboard hand are marked by red buoys, those to be left on port hand by black buoys.

LIGHT HOUSES.

LOCKPORT WHISTLING BUOY, lat 43° 37′ 28″ N., lon 65° 1′ 44″ W., off the approach to Ragged Island Harbour; red iron buoy with letter L. in white, surmounted by 10 inch whistle; whistle sounded by the motion of the waves From the buoy Carter's Island light bears N. by W., ½ W., 5§ miles. Gull Rock Light, N. W. ½ N. 3§ miles, and a N. N. W course leads about midway between the 4½ fathom patch and the blow breaker up to S. end of Cranberry Island.

CAPE SABLE, on Cape, lat 43° 23′ 19″ N., lon. 65° 37′ 15″ W., white catoptric revolving light, bright 15 seconds, dark 25 seconds, visible 12 miles, 53 feet high, white octagonal building, 50 feet high. A steam fog whistle on Cape, elevated about 40 feet above high water, sounds in thick weather, fogs and snow storms, a blast of ten seconds' duration each minute, with an interval of 50 seconds between each blast.

Brazil Rock.—A Bell Buoy marks this danger, painted red and black horizontal stripes, moored in about 22 fathoms ½ mile S. by Wfrom Rock.

WEST HEAD, Cape Sable Island, lat N. 43° 27′ 17″, lon. W. 65° 39′ 10″. Fixed white, dioptric, visible 10 miles White square tower 36 feet high. Light 42 feet above high water. Hand fog-trumpet answers signals.

STODDART ISLAND, on N. W. point of island, lat 43° 28′ 26″ N., lon 65° 43′ 7″ W., fixed red catoptric light, visible 9 miles, 22 feet high, white small square tower. To guide vessels into the anchorage of Stoddart Harbor and Shag Harbor Sound. Hand fog horn answers

Bon Portage Island, on south point, lat 43° 27′ 14″ N., lon 65° 44 44″ W., red catoptric light, revolving every minute, visible 12 miles, 46 feet high, white square wooden building, with dwelling attached, height 28 feet. For guiding vessels into Barrington West Bay and Shag Harbor. Hand fog-trumpet answers signals.

Pubnico Harbor, Beach Point, east side of entrance, 120 yards from low water mark, lat 43° 35′ 45″ N., lon 65° 46′ 54″ W., fixed white dioptric light, visible 11 miles, 40 feet high, square white building, with dwelling attached, surmounted by iron lantern 40 feet high. Open westward of St. John's Island, bearing N. E. by N., clears the ledge; in making harbor from any other direction, the light must be brought to the northward of E. N. E. before it can be steered for to avoid shoal spot off St. Ann's Point. Spar buoys mark the channel. Black left on port hand, red on starboard in approaching the harbor.

ST JOHN LEDGE BELL BUOY, in 22 fathoms, 1½ miles S. W. by W.

3 W. from the middle of the ledge. Red iron buoy with "J. Ledge" in white letters. From buoy Pubnico light is open to westward off St John's Island N E by N 6½ miles.

ABBOTT HARBOR.—On mainland 1-5 mile east of southern extremity of Abbott Island, lat N. 43° 39′ 35″, lon W. 65° 49′ 15″. In operation during the fishing and lobster season. Lantern on mast, with white shed at base. Shows a white light. Height 40 ft., visible 8 miles.

ARGYLE, on south point of Whitehead Island, Yarmouth County, lat 43° 39′ 40″ N., lon 65° 52′ 4′ W., fixed red and white catoptric light, visible 12 miles, 115 feet high, building white, square, wood, with dwelling attached, height 28 feet. For guiding vessels into Argyle Harbor. Shows a white light towards harbour; red seaward.

TUSKET RIVER, Big Fish Island, south-west point, lat 43° 42′ 10″ N. lon 65° 57′ 10″ W., two fixed white catoptric lights, horizontal, 8 yards, apart, visible 12 miles, 50 feet high, white square wooden building, height 23 feet. Visible seaward; in windows each end of a dwelling house

Harbor.

SEAL ISLAND, south point, \(\frac{1}{2} \) mile from shore lat 43° 23′ 34″ N., lon 66° 10′ 52° W., fixed white light, dioptric, 2nd order, visible 18 miles, 98 feet high, white octagonal building, height 60 feet. The Blonde Rock lies S. by W. 3\(\frac{1}{2} \) miles from light house. Between this Rock and the Island there are some dangers, the ground is rocky throughout, and large vessels ought not to attempt passing between them. A fog whistle near light house, during fogs and snow storms, sounds in each minute a blast of 5 seconds duration, and after an interval of 5 seconds gives another blast of 5 seconds, with an interval of 45 seconds. Life-boat station.

BLONDE ROCK, an automatic whistling buoy has been placed in 13 fathoms water about 1 mile S 1 E from the Rock.

Pease's Island, on the south point of Pease's Island, one of the Tusket Islands, Yarmouth County, Nova Scotia, lat 43° 37′ 35″ N., lon 66° 1′ 40″ W. The main or sea light is revolving catoptric, showing alternately red and white, each color visible for 15 seconds, with intervals of 45 seconds between the flashes. It is elevated 56 feet above high water mark, and in clear weather should be seen 12 miles from all points of approach from the southward, and also through the Schooner and Ellenwood Passages. A fixed red catoptric light is shown from a window in the tower, 16 feet below the main light. It is intended to mark the channel between the two dangers known as the Old Man and Old Woman Rocks, and is, therefore, visible between the bearings W. by N. ½ N., and N. W. by W., and in no other directions. It should be visible 4 miles. The tower is a wooden building, painted white, and consists of a square tower 42 feet high from base to vane on lantern, with a keeper's dwelling attached. Hand horn answers signals from vessels.

CANDLEBOX ISLAND, N entrance to Schooner Passage, lat N. 43° 39′ 34″, lon W. 66° 2′ 45″, fixed red, dioptric, elevated 56 feet, visible 8 miles, white, square tower, with dwelling attached.

WHISTLING BUOYS OFF YARMOUTH.—1st, Cape Forchu automatic, red, in 22 fathoms, 5 miles N. W. by W. from Cape Forchu light. 2nd, Yarmouth Fairway automatic, black and white vertical stripes, in 34 fathoms, 10 miles S. W. by W. ½ W. from Cape Forchu light; lat 43° 48′ 50°, N., lon 66° 16 1° W.

YARMOUTH OR CAPE FORCHU, east cape, south point, lat 43° 47′ 28′, N., lon 66° 9′ 20″ W., white catoptric light, revolving, showing three bright flashes with intervals of 20 seconds between their points of greatest brilliancy, followed by an interval of 40 seconds. 18 miles, 117 feet high, octagonal tower, vertical stripes, red and white, height 59 feet. Fog whistle on west side, sounds in fogs and snow storms, 10 seconds in every minute.

Cat Rock Bell Buoy.—In 12 fathoms water 3 cables S. S. W. from Cat Rock off the southern extremity of East Cape, on the western side of entrance to Yarmouth Harbor, lat N 43° 47′ 2", lon W. 66° 9′ 26". The buoy is painted black, with Cat Rock in white letters on top.

YARMOUTH Bell Buoy, moored in 10 fathoms water, off Yarmouth Sound. From the buoy the Roaring Bull bears E N E, distant 11 miles, and Cape Forchu light bears N E by N, distant 35 miles; lat 43° 44′ 0° N., lon 66° 40′ 47° W.

An Automatic Buoy, painted red and black horizontal bands, with "Lurcher Shoal" in white letters, has been placed in 18 fathoms of water, about ½ mile W. by N. from the Lurcher shoal, which lies 15 miles N. W. by W. ½ W, from Cape Fourchu light.

BAKER'S COVE, Life boat stationed.

2' 10" N., 8 yards, building, dwelling

Bunker's Island, on end of reef, off S. W. point of Island, east side of entrance to Yarmouth Harbor, lat 43° 48′ 36″ N., lon 66° 8′ 42″ W., fixed red catoptric light, visible 10 miles, 27 feet high, the lantern on a dwelling house, built on a steel and concrete pier. A red beacon light for the purpose of guiding vessels into the harbor. Visible from the southward between the bearings of N. E. by N. and N. § E. It can also be seen over Stanwood's Beech, when bearing from S. § E. to S. E. § E., but cannot be run for on these bearings, the only entrance to the harbor being through Yarmouth Sound and round East Cape. Fog Bell at light gives one stroke every 15 seconds.

GREEN COVE, or Maitland, Lat N 43° 59′ 5″ Long W 66° 9′ 30″, a red pole light, on outer end of westerly breakwater. 33 ft. hig h, visible 7 miles. Is being replaced by a square white tower.

Trinity Ledge, an Iron Bell Buoy, painted red, moored in 8 fathoms, W by N $\frac{1}{2}$ N, 600 feet from Trinity Ledge.

N. W. LEDGE, BRIER ISLAND.—A bell buoy is moored N. N. W. ½ W., 400 yards from the N. W. rock, in 15 fathoms

CAPE St. Mary, east side of Bay, lat 44° 5′ 10″ N., lon 66° 12′ 40″ W., red and white catoptric light, revolving alternately every 30 seconds, visible 17 miles, 103 feet high, octagonal white building, height 43 feet.

METEGHAN RIVER, at extreme end of Breakwater, lat 44°13′ 10″ N. lon 66°8′ 42″ W., fixed green dioptric light, visible 6 miles, 23 feet high, building vertical, red stripes on seaward side, 21 feet high, lantern painted black. Beacon for guiding vessels into river. Must be left on starboard hand and passed close aboard. Tide leaves breakwater one hour before low water.

Church Point, east side of St. Mary's Bay, Digby County, lat 44° 19′ 55″ N., lon 66° 7′ 35″ W., fixed red catoptric light, visible ten miles, 36 feet high, square white wooden building, with dwelling attached height 20 feet.

Belliveau Cove, lat N 44° 24′ 20″, long W 66° 3′ 10″. Fixed green light, shown from a square tower painted white, 22 feet high, on outer end of eastern pier. Light is elevated 24 feet above high water mark visible 4 miles.

SISSIBOO, south side of entrance to river, lat 44° 26′ 25″ N., lon 66° 1′ 00″ W., fixed white catoptric light, visible 8 miles, 36 feet high, white wooden building, pyramidal, height 33 feet.

Westport, Peter's Island, entrance to Grand Passage, lat 44° 15′ 27″ N., lon 66° 20′ 21″ W., 2 fixed white catoptric lights, horizontal, 24 feet apart visible 10 miles, each 46 feet high, square white building, height 15 feet. Visible from the northward between the bearings of S. by W. and S. S. W., and from the southward between the bearings, of N. E., by E., and N. N. W. ‡ W. Hand fog-trumpet answers signals.

A red and black Can on Passage Shoal, and a black Can Buoy off Cow Ledge, and a red can buoy off Dartmouth Point.

A red beacon on Cow Ledge.

Brier Island, north-west Point, lat 44° 15′ 57″ N., lon 66° 23′ 38″ W., fixed white catoptric light, visible 13 miles, 92 feet high, white octagonal building, height 55 feet. A steam fog whistle on N. W. of Brier Island, south side of light house, sounds during thick and foggy weather and snow storms as follows:—Blast of four seconds, interval four seconds, blast of four seconds, interval of four seconds, blast of four seconds, interval of forty seconds—making sixty seconds.

BOAR'S HEAD, 17 yards from edge of cliff, on W. side of N. entrance to Petit Passage, lat 44° 24′ 10″ N., lon 66° 15′ 3^µ W., red and white ca.

toptric light, revolving alternately every minute, visible 14 miles, 70 feet high, white square building.

POINT PRIM, south point of entrance to Annapolis Basin, lat 43° 41′ 30″ N., lon 65° 47′ 10″ W., fixed white catoptric light, visible 13 miles, 76 feet high, square tower, vertical red and white stripes, height 22 feet. Fog whistle on Prim Point sounds in snow storms and in thick or foggy weather 8 seconds in each minute, making an interval of 52 seconds between each blast.

DIGBY PIER, Red Pole Light on outer end of pier.

SHAFNER'S POINT, on N. side of Annapolis River, lat 44° 42′ 40″, lon W. 65° 37′ 12″. Fixed white dioptric, 55 feet high, visible 8 miles. Building white, square, wood. Indicates Goat Island Shoals.

Annapolis, on "Engineer's Lot" in Annapolis town, lat N 44° 44' 51", long 65° 31′ 06". Fixed red light, dioptric, visible 8 miles Square tower, painted white. After passing the black spar buoy off Marsh Point, this light affords a direct course E by N & N clear of It must not be shut in to the southward. shoal ground.

MARSHALL COVE or PORT WILLIAMS, south shore, Bay of Fundy. lat 44° 56.′ 53″ N., lon 65° 15′ 56″ W., 2 fixed white catoptric lights, vertical, 22 feet apart, upper 92 feet high, lower 70 feet, visible 10 miles, white square building, height 22 feet. Lantern on top of dwelling; lower light in bow window, visible from seaward from E. by S. through S. to W. S. W. 1 W.

PORT GEORGE, on outer end of Eastern Pier, lat. N. 45° 0' 25", lon. W. 65° 9' 25". Fixed green catoptric, 25 feet high, visible 7 miles, square white tower, 21 feet high.

MARGARETVILLE, on extremity of point, south shore, lat 45° 3′ 20" N., lon 65° 4'0" W., two fixed red catoptric lights, 30 and 27 feet high, visible 8 miles, square building, horizontal white and black stripes, height 22 feet. Visible from seaward from S. E. by E. ‡ E., through north to W. by S. 4 S.

ISLE HAUTE, on highest point, lat 45° 14′ 55" N., lon 65° 0′ 45" W., white revolving catoptric light, 365 feet high, shows 40 seconds in every minute, visible 25 miles, white square wooden building, dwelling

attached, almost hidden by trees; height 53 feet.

Black Rock, south shore, Bay of Fundy, lat 45° 10′ 5″ N, lon 64° 5′ 54" W., fixed white catoptric light, visible 12 miles, 45 feet high, square, white building, height 35 feet. Light on top of dwelling, visible from all points of approach.

ADVOCATE HARBOR, southern side of entrance, lat 45° 19' 25" N., lon 64° 47′ 30″ W., fixed red dioptric light, 36 feet high, visible 7 miles, square white tower with dwelling attached, 27 feet high. Coast light, and to indicate entrance to harbor, over the bar.

Kingsport, on Oak Point Pier, lat 45°9′35″ N., lon 64°21′30″ W. fixed white dioptric light, height, 27 feet. White tower, 23 feet high, visible 10 mlies from S. W. ½ W. round by E. to N. W. by W. ¾ W.

Horron, on bluff, west side of Aven River, lat 45° 6′ 30" N., lon 64° 13' 20" W., fixed white catoptric light, 100 feet, visible 20 miles. Square tower with dwelling attached, 33 feet high.

WALTON HARBOR, Basin of Minas, Hants County, E side of meuth of La 'lete River, lat 45° 14' N., lon 64° 0' 45" W., fixed red catoptric light, visible 10 miles, 60 feet high, square white wooden building, height 20 feet. For guiding vessels into Walton harbor.

Burntcoat, Basin of Minas, north-west extremity of head, S. shore, lat 45° 18′ 40″ N., lon 63° 48′ 30″ W., fixed white catoptric light. visible 13 miles, 75 feet high, square white building, height 35 feet Visible from all points of approach. On dwelling.

ater, lat 25 feet es over DIPPER HARBOR, on S. point of Campbell's Island. Lat 45° 5° 30° N, long. 66° 25° 0° W. Fixed red light, 30 feet high, visible 6 miles. Building white square wood with red roof. Visible seaward and in the harbor when bearing from S by W to S E.

LEPREAU, on point, lat 45° 3' 32", long 66° 27! 45" W. Fixed white catoptric light, 80 feet high, visible 14 miles from all points seaward. Octagonal wooden building, 48 feet, striped horizontally red and white, lantern roof red. Steam fog horn gives blasts of 5 seconds duration, with intervals of 25 seconds. Should the horn get out of order a whistle will sound two blasts of 5 seconds duration, with an interval of 5 seconds between, in every minute.

LEPREAU WHISTLING BUOY, in 23 fathoms, 1 mile S. S. W. from light-Lat 45° 2' 31" N., lon 66° 27' 50" W.

DREW'S HEAD, on W. side of Beaver Harbor, Charlotte County, lat 45° 3° 45° N., lon 66° 44° W., fixed white catoptric light, visible 10 miles, 45 feet high, white, square, wooden building, height 36 feet. Seen at all points between eastern and western heads of harbor.

PEA POINT, lat 45° 2° 20° N., lon 66° 48° 40° W., east side of entrance to LeEtang Harbor, fixed green light, visible 5 miles. White, square, wood building, dwelling attached. Visible from seaward from W. through N. to S. An iron spindle painted black on the Grey Mare Ledge, marks the W. side of entrance.

BLISS ISLAND, W. end of Island, S. side of western entrance to Bliss Harbor, lat 45° 1' 15" N., lon 66° 51' W., fixed red catoptric light, visible 16 miles, 45 feet high, white, square, wooden building, height 30 feet.

LATITE PASSAGE, on Mascabin Point, lat 45° 2° 20° N., lon 66° 53° 30° W. A fog trumpet has been erected on Mascabin Point, south entrance to Latite Passage, sounds blasts of 7 seconds, with an interval of 30 seconds between each.

MIDJIC BLUFF, Passamaquoddy Bay, Charlotte County, lat 45° 6' 53" N., lon 66° 54' 30" W., fixed white catoptric light, visible 15 miles, 130 feet high, building white, square, wood, height 29 feet, lantern brown. A bar extends E. N. E. from light house, and vessels require to keep off a distance of 260 yards to clear it at low water.

PORT ST. ANDREW'S, on sand reef at E. entrance, lat 45° 3' 45" N., lon 67° 1' 0" W., fixed white catoptric light, visible 10 miles, 40 feet high, structure white, square, wood, on a framed pier, height 10 feet. To guide to all ports in inner bay, and to vessels going up the River St. Croix from Letete Passage or West Quoddy. There is only a depth of 4 feet of water on the N. W. extension of the reef towards mainland.

PORT ST. ANDREWS, N. point of entrance, lat 45° 4' 0" N., lon 67° 3′ 0" W., fixed white catoptric light, 42 feet high, visible 10 miles, white octagonal building, height 22 feet. Visible between the bearings of N. W. by N. and S. E. by S.

Spruce Point, St Croix River, Charlotte County, lat 45° 10° N., lon 67° 11° W., fixed white catoptric light, 32 feet high, white square building, height 28 feet, visible 10 miles. The course from Spruce Point to ballast ground is E. by S. ½ S., distance 2 miles. From Spruce Point to Mark Point W. N. W., distance 2 miles. A vessel after leaving Doucet Island, to clear the reef, should steer N. until the Spruce Point light bears N. W. by W., and thence take a W. N. W. course.

MARK POINT, St Croix River, Charlotte County, lat 45° 10' 10" N., lon 67° 12' 30" W., fixed white catoptric light 32 feet high, visible 10 miles, square white building, height 28 feet.

HEAD HARBOR, E. Quoddy Head, N point of Campobello Island, at 44° 57' 30" N., long 66° 54' 10" W. Fixed white light, dioptric, 64 feet high, visible 13 miles. Octagonal building, 34 feet, white with red cross, dwelling attached, iron lantern red. Feg trumpet sounds blast of 8 seconds duration, with intervals of 35 seconds between them.

MULLHOLLAND POINT, on E. side Lubec Narrows, Campobello Island, lat 44° 51' 40" N., long 66° 58' 50" W. Fixed white light, dioptric, 60 feet high, visible 13 miles from N. N. W. through E. to S. S. W. Building white octagonal wood, 44 feet.

South West Wolf Island, on S. E. point of the island, lat 44° 56′ 30° N., lon 66° 44° 00° W., white catoptric light, revolving every 1½ minute, visible 17 miles, 111 feet high, building white, square, wood, height 35 feet. Lantern on dwelling; visible from all points of approach. An automatic whistling buoy is moored in 52 fathoms, 1½ miles S. S. E. from Wolf Island light.

SWALLOW TAIL, N. E. part of Grand Manan, lat 44° 45' 46" N., lon 66° 44' 2" W., fixed white dioptric light, visible 17 miles, 148 feet high, white octagonal wooden building, height 50 feet. Visible between the bearings of S. W. round by S. to N. W.

Long Eddy Point Fog Whistle, extreme N. W. head of Grand Manan, 80 feet above high water, sounds blasts of 4 seconds duration, with intervals of 16 seconds; lat 44° 48′ 0°N., lon 66° 47′ 15° W.

Grand Harbor, Grand Manan, on Fish Fluke Point, lat 44° 40′ 2° N, lon 66° 45′ 8″ W., fixed white catoptric light, visible 11 miles, 40 feet high, white, square wooden building, with dwelling attached, height 32 feet. Visible from all points seaward.

BIG DUCK ISLAND FOG HORN, S. end of Island, lat 44° 41° 5" N., long 66° 41° 40" W. Sounds blasts of 6 seconds duration, with intervals of 35 seconds.

SOUTH-WEST HEAD, Grand Manan, bridge of cliff, S. extremity of head, lat 44° 36′ 0″ N, lon 66° 54′ 16″ W, revolving red and white catoptric light; visible 20 miles, three red flashes 40 seconds, eclipse 20 seconds, 3 white flashes 40 seconds, eclipse 20 seconds, 200 feet high; white, square wooden building, with dwelling attached, height 43 feet.

GANNET ROCK, S. of Grand Manan, lat 44° 30° 38° N., lon 66° 6° 57° W., intermittent white light, 45 seconds, eclipse 5½, flash 4½, eclipse 5½ in every 60. Visible 12 miles. Vertical black and white stripes, octagonal, wood, 41 feet high—Cotton powder bombs exploded every 20 minutes. Dangerous rocks extend 4 miles eastward of the light house.

MACHIAS SEAL ISLAND, near middle of island, lat 44° 30° 7° N., lon 67° 6° 13° W. Fixed white light, dioptric, 54 feet high, visible 12 miles. Also, 64 yards S. E. from westerly light, fixed white light, dioptric, 66 feet high. Both buildings white, octagonal wood. In range N. W. will lead 4¾ miles S. of Murr Ledges. A fog whistle sounds 5 seconds in each half minute.

SABLE ISLAND.

SABLE ISLAND, west end light house, lat 43° 56′ 40″ N., lon 60° 6′ 0″ W. A revolving white light, giving three flashes at intervals of half a minute, then a cessation of light during one and a-half minutes; visible 17 miles. White octagonal tower, 98 feet high. 2½ miles W. of Main Station.

Sable Island, 6 miles from east end, lat 43°58′ 10° N., lon 59° 46′ 20° W., fixed white dioptric light, 2nd order, visible 18 miles, 128 feet high, octagonal building, white and brown alternately, height 86 feet. Telephone connects the two lights and four residential stations.

PRINCE EDWARD ISLAND.

STRAIT OF NORTHUMBERLAND SIDE.

EAST POINT, 250 feet from S. shore of point, lat N. 46° 27′ 10″, lon W. 61° 58′ 10″. White catoptric light, revolving every 3 minutes, visible 15 miles, 100 feet high. White, octagonal, wood, drab fog-alarm building in front of tower, white dwelling near by. Light visible from S. E. by S. through W. to E. by N. ½ N.

Fog-alarm building stands 100 feet eastward of lighthouse, and in line with tower roughly indicates range of outer point of reef. Steam horn gives a blast of 8 seconds every \(\frac{1}{2}\) minute.

Souris, East. Knights Point, 300 feet S. E. of break water, lat N. 46° 20′ 50″, lon 62° 14′ 30″ W., fixed white dioptric; height 85 feet, visible 15 miles. White, square, wood with dwelling attached. Visible from all points seaward.

Souris East Breakwater, on outer end of breakwater, lat 46° 20′ 50″ N., lon 62° 15′ W., fixed red catoptric, 40 feet high, visible 2 miles from all points of approach seaward. Lantern on a mast, 34 feet high, with a hexagonal shed at base. It may be impossible to keep this light in operation in very heavy weather.

CARDIGAN RIVER, between Ferry Wharf and Morrison's Beach, west shore of river, lat N. 46° 12′ 50°, lon 62° 31′ 45′′ W.; fixed catoptric green to seaward, white across the river to N.E. ward, 43 feet high, visible 8 miles, white, square, wood building 32 feet high. In entering river vessels should stand northward inside Boughton Island until Panmure Island Light bears S. by W., and Cardigan River Light N. W. when they can stand in keeping light open on port bow. When white light is opened safe anchorage has been reached.

PANMURE HEAD, S. E. extremity of Cardigan Bay, lat N. 46° 9', lon 62° 27' 35" W., fixed white dioptric, 96 feet high, visible 16 miles. White octagonal, wood dwelling near by. This light should be kept open off Terras Point, to clear reef off Cape Bear.

Georgetown, on St. Andrews Point, S. W. side of entrance, lat 46° 9′ 57″ N, lon 62° 31′ 30″ W., fixed catoptric, red seaward, white across the harbor, between N. E. and N. W., visible 10 miles White, square, wood, 32 feet high with iron lantern rising from middle of roof.

On Westaway's farm, $\frac{1}{2}$ mile N. W. by W. $\frac{1}{2}$ W. from front light; fixed white catoptric, 62 feet high, visible 12 miles; white, square, wood building, 46 feet high. The two in range lead in N. W. by W. $\frac{1}{2}$ W. to the point clear of obstructions.

MURRAY HARBOUR, on Beach Point, S. side of harbour, lat N. 46° 1' 28", lon 62° 28' 30" W., fixed white catoptric light, 33 feet high, visible 8 miles; white, square wood building, 30 feet high.

On mainland, about a mile W. by S. from frout light; fixed white catoptric, 57 feet high, visible 10 miles; white, square wood building, 40 feet high. In one, these range lights show the channel to the outer buoy.

CAPE BEAR, on the headland, lat 46° 6′ 45″ N., lon W. 62° 27′ 15″, red catoptric, revolving 30 seconds; 74 feet high, visible 12 miles. White square wood building with dwelling attached.

WOOD ISLAND, off south point, lat $45^{\circ}\ 57'\ 22^{\circ}\ N$, lon W. $62^{\circ}\ 44'\ 10^{\circ}$, fixed white dioptric, 80 feet high, visible 15 miles; white, square wood building with dwelling attached.

Indian Rocks Whistling Buoy, in 9 fathoms S. westward of rocks, lat 45° 56' 10'' N., lon W. 62° 49' 10''. Red iron buoy sarmounted by a

10 inch whistle. Whistle sounded by action of the waves. From the buoy, Bell Point bears N. by E. § E., and Wood Island Light E ½ S.

POINT PRIM, S. E extremity of Hillsborough Bay, 100 yards from the point, lat N. 46° 3′ 10″, lon 63° 2′ W.; fixed white extoptric light, 68 feet high, visible 12 miles. White, circular brick building, covered with shingles, white dwelling near by. Bell-buoy on E. side of channel, black buoy on W. side 2‡ miles N. by E. 3 E. from bell buoy, harbourward

ORWELL HARBOUR, at Brush Wharf, lat 46° 9′ 6″ N., lon W. 62° 52′ 50″, fixed red catoptric, 28 feet high, visible 8 miles. White, square wood building, 22 feet high. Light shows S. W.

FITZR Y ROCK BELL-BUOY, in $4\frac{1}{2}$ fathoms, west of shoalest part, lat N- 46° 7′ 17″, lon 63° 6′ 8″ W. Red iron buoy surmounted by bell. This buoy is $4\frac{1}{8}$ miles N. N. E. from Point Prim can buoy.

HASZARD POINT, front range, on the point, Bellevue farm, 35 feet back from shore, E. side of entrance to Charlottetown Harbour. Lat N. 46° 11′ 50″, lon 63° 4′ 5″ W., fixed red catoptric light, 45 feet high, visible 8 miles. White, with brown roof, square, wood building, 47 feet high. Maintained during general navigation and whenever winter steamer is running to Charlottetown.

Back range, in rear of Bellevue farm buildings, 2.244 feet N. E. ‡ N-from front light; fixed red catoptric light, 125 feet high, visible 12 miles; white, with brown roof, square wood building, 47 feet high. Lights visible over a small arc on each side of alignment. Alignment can be taken off Point Prim and followed in N E ‡ N with nowhere less that 5 fathoms, passing W. of Fitzroy Rock bell buoy and E. of St. Peters spit buoy until Brighton Beach range lights are brought into one.

BLOCKHOUSE POINT, at W. side of entrance to Charlottetown Harbour. Lat 46° 11′ 36″ N., lon 63° 7′ 28″ W.; fixed white catoptric light, 56 feet high, visible 12 miles; white, square wood building, with dwelling attached.

BRIGHTON BEACH, front range, on N. W. extremity of Hon G. W. Howlan's property, E. side of N. river. Lat. 46° 14′ N., lon W. 63° 8. 20′′, fixed red catoptric light, 41 feet high, visible 7 miles. White skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Maintainel during navigation and whenever winter steamer is running to Charlottotown.

Back range, on old Asylum grounds, 1275 feet N. from front. Fixed red catoptric, 77 feet high, visible 9 miles. White, skeleton tower with slatted face, brown iron lantern, red diamond inside facing channel. Lights visible over a small arc on each side of alignment.

Alignment to be taken where it intersect Haszard's Point alignment, about ½ mile S. of St. Peter's Spit Buoy, and followed due north to Canseau Point, where the course up the harbour can be judged by the town lights.

ST. PETERS ISLAND, on S. side of Island, Hillsbourgh Bay. Lat N. 46° 7′ 20″, lon 63° 11′ 35″ W., fixed red dioptric light, 70 feet high, visible 10 miles. White, square wood building 38 feet high. Shows between W. ½ S and S. E. by S. over an arc of 240°. To be changed to an occulting white light.

LEARD'S RANGE, CRAPAUD, west end of bridge, at head of harbour. Lat. N. 46° 13′ 15″, lon. 63° 29′ 10″ W. Fixed white catoptric light, 41 feet high, visible 6 miles. White, with red diamond on side facing channel, square, wood building, 38 feet high. Light visible from all points of approach.

LIGHT HOUSES.

Inner range light, about ½ mile N. from outer one. Fixed white catoptric light, 60 feet high, visible 6 miles. Shown from dormer window of a house. Day beacon of slatwork, 20 ft. high by 12 wide, painted white, shows above ridge of house. To enter Crapaud Harbour from the Strait of Northumberland vessels should bring the Leard' range lights into aliznment and keep them in one on a N. course until the lights of Wright's range are in alignment, when they should follow this range N. W. ‡ N. until the red light in Palmer's wharf is in alignment with the front light of Leard's range. These two in one will lead in from the black buoy at the entrance to the dredged cut, through the cut to the wharves N N E, but strangers entering at night are advised to anchor in the road at this last described turning point near the black buoy, as they will be in good anchorage inside Tryon Shoals, while it is not safe to attempt the dredged cut at night.

Tryon Shoal Whistling Buoy, in 54 fathoms, off south extremity. Lat. N. 46° 8′ 55", lon. 63° 31′ 48" W. Bown iron buoy with "Tryon Shoal Buoy" in white; surmounted by 10 inch whistle. Left to star board going up strait to North Westward.

From the buoy Crapaud Chapel N. E. 1 E. 51 miles, just open of range light on point and Carleton Point N. N. W. 1 W. 93 miles just open of C. Traverse.

SEA COW HEAD lat. N. 46° 19′ 10′′, lon. 63° 48′ 25″ W. Fixed white catoptric, visible 15 miles. White, octagonal, wood building, white dwelling near by.

INDIAN POINT, E edge of shoal, on S. side of channel, in Bedeque Bay. Lat. 46° 22′ 50" N. lon. 63° 48′ 45" W. Fixed white catoptric with green sector. 48 feet high, visible 13 miles. White octagonal wood building on a circular stone pier. Green between E. by N. ½ N. and E. S. E. over Miscouche Shoals only.

SUMMERSIDE, railway wharf, Bedeque Bay, fixed red in line of range white in harbour, square tower on roof of railway freight shed.

Back range, 3 mile E 1 S from front light, fixed red, 65 feet high, white square wood, open frame work, boarded in front and surmounted by a red lantern.

After Indian Point light is abeam, haul in E. by S. until range lights

are in one, and keep alignment up to railway wharf.

Cape Egmont, on point, lat. 46° 24' 20° N., lon. W. 64° 7' 45''; fixed red catoptric, 72 feet high, visible 10 miles. White square wood building, 45 feet high, with dwelling attached.

WEST POINT, on Sand Beach, lat. 46° 37′ 30″ N., lon. 64° 23′ 20″ W. Red and white catoptric light, revolving $22\frac{1}{2}$ secs. One red and three white flashes in $1\frac{1}{2}$ minutes. Visible 13 miles. Broad red and white horizontal bands, square, wood with dwelling attached, 67 feet high.

West Point whistling buoy, painted red, in 13 fathoms water, 3 mile W. of the middle of the outer shoal. From the buoy West Point light bears S. E by S. 53 miles, and Wolfe Point E. by S. 5 miles.

BIG MIMINEGASH, 500 feet south of breakwater, lat 46° 53′ N., lon W. 64° 13′. Fixed red and white catoptric light; 30 feet high, visible 5 miles. Lantern on a mast with white shed at base. Shows red from N. E. round through E. to S. covering Miminegash Reef, and white from S. to S. W. by W. which includes line of range. Vessels N. of reef bearing westward will be clear of it when red disappears.

Rix's Point, 1 mile S. $\frac{1}{2}$ W. from front light; fixed white catoptric light, 45 feet high. Lantern on a mast with white shed at base. Shows over a small arc on each side of the line of range. These lights in line lead to the outer end of N breakwater.

lights, con ex line 6; S. W. buoy NORTH POINT, on point, lat N. 47° 3′ 46″, lon 63° 59′ 10″ W., white catoptric, revolving one minute; height 80 feet, visible 14 miles. White octagonal, wood, surmounted by a red iron lantern, dwelling near by.

ST. PETERS.—Two range lights, white, catoptric. Buildings white square wood. Out r 18 feet S. W. from outer end of breakwater. The back range light 1458 feet S. by W. from the front light. Buoys indicate best channel. Lat N. 46° 26′ 40″, lon W. 62° 44′ 50″.

SAVAGE HARBOUR.—Two range lights, white catoptric, shown from lanterns on masts with brown sheds at base. Outer light on McEachren's farm on inner shore of harbour, lat N. 46° 25′ 40″, lon W. 62° 48′ 30″. Lights in range lead to mid-channel bnoy outside bar. Vessels open the lights on starboard bow, after passing buoy, until inner fairway buoy is reached, where channel leaves range. Only 5 feet water on bar at low tide. Outer light liable to be moved.

TRACADIE.—Two range lights, red lat N. 46° 25′ 35″, lon W. 63° 2′ 30″. Outer light on beach W. side entrancee 1800 feet back from shore line. Open square frame work. Back tower, white, square wood 28 feet high, 1200 feet S. S. W. from front. In one, lead in about S. W. by W. past the buoys, leaving the buoy outside bar on on starboard, buoy inside bar on port hand. Not more than 5 feet water on bar. Positions of both towers liable to be changed to suit the shifting of the channel.

COVE HEAD.—Two range lights, showing white lights from lanterns hoisted on masts, lat N. 46° 26′ 10″, lon W. 63° 8′ 45″. Front light close to edge of sand beach at entrance to harbour. Back light 600 feet from front.

NORTH OR GRAND RUSTICO.—Two range lights. Back light, west side of entrance to harbour, lat N. 46° 27′ 42″, lon W. 63° 17′ 15″, white square wood with dwelling attached, 35 feet high, shows fixed white light, catoptric, 40 feet above high water mark. Front range light 225 feet from main light, shows fixed red light from lantern hoisted on mast, 22 feet above high water. The alignment leads to black can buoy outside bar in 13 feet water, after passing which vessels must open lights leaving them on starboard side to clear breakwater on N. side of entrance to harbour. A small spar buoy marks outer extremity of breakwater, of which the part above water has been carried away. Outer light liable to be moved to suit channel.

NEW LONDON.—Two range lights visible over 110° between Sim's Pointand sand hills on E. side of harbour. In range they show the entrance to the harbor. Outer range light liable to be moved to suit shifting of the channel. The outer light is a white square wood, open framework telow, brown 21 feet high, showing a white catoptric light, elevated 24 feet above water. The back light is on beach 1500 feet S.W. of main light, building white square wood with dwelling attached. Iron lantern brown, height 35 feet from base to vane. Shows a fixed red catoptric light, elevated 45 feet above high water. Lat N 46° 31′ 10″, lon W. 63° 28′ 52″.

DARNLEY POINT, lat N. 46° 34′ 0′′, lon W. 63° 39′ 0′′. Two range lights, red, lanterns on masts with white shed at base. Diamond beacon extends from top of mast to roof of shed. Front range near shore line 6½ cables south-easterly from C. Aylesbury. Back range 1341 feet S. W. by W. from front range light. Alignment leads to black can buoy at Eastern Passage over bar at entrance to Malpeque harbor.

LIGHT HOUSES.

Vessels entering keep the alignment until they bring the Fish Island lights in one.

Fish Island, lat N. 46° 34′ 52″, lon W. 63° 42′ 17″. Entrance to Malpeque or Richmond Bay, white square wood with dwelling attached, on inside of island, 46 feet base to vane, fixed white catoptric light, 50 feet high. Front range 1200 feet S. E. by E ½ E. from main light, open frame work, lantern white, fixed white light 18 feet high.

Darnley Basin range, 400 feet S. by E. ½ E. from main light. Fixed red light, shown from lantern on mast, 18 feet high. The main light is a sea light, the smaller one in range with it shows the channel over the bar with 15 feet, and ranging with the fairway buoy inside the bar, whence the channel is marked by the harbour buoys. There is a 13 foot spot between the Eastern Passage buoy and the fairway buoy.

LITTLE CHANNEL —Two range lights, fixed white, lat N. 46° 40′ 0″, lon. W. 63° 52′ 40″. Outer light on Conway Inlet, N. side, white square wood, with kitchen attached 30 feet base to vane, light fixed white catoptric 26 feet above water. Front range 200 feet from main light, open framework, lantern white, fixed white light, catoptric, 16 feet high. In one, lead through channel with 5 feet at entrance to harbour. There is a ballast heap in the alignment at the point of the S. sand hill, to pass this the front light must be opened to N. Outer light liable to be moved to suit the change in the channel.

SANDY ISLAND.—Coast light S. W. part of island, entrance to Cascumpec, lat N. 46° 48′ 22″, lon W. 64° 2′ 20″. White square wood with dwelling attached, 41 feet base to vane, fixed white catoptric light 45 feet above high water, visible 12 miles

light, 45 feet above high water, visible 12 miles.

Northport Range Lights. The masts heretofore in use have been substituted by two open skeleton lighthouse towers. Each tower is an open framed wooden building surmounted by a square wooden lantern, and has its side facing the channel slatted to make it a more conspicious leading mark. The whole building is painted white. Both lights are fixed red and should be visible 3 miles on the line of range. The front tower stands on a bank 990 feet W. ½ N. from the position formerly occupied by the front range mast near the outer end of the Queen's wharf. It is 29 feet high from the ground to the vane of the lantern. The light is 31 feet above high water. Lat N. 46° 48′ 16″, lon W. 64° 2′ 6″. The back range tower stands 1125 feet W. ½ N. from the front one and is 41 feet high and the light is elevated 42 feet above high water mark.

Vessels entering Cascumpec harbour keep the Savage Island range lights in one until the Northport range lights are nearly closed when they should change their course for the Northport range, being careful not to overrun the line of range, as the channel at the point of intersection is narrow and the tide strong. The Northport range leads in to the wharf clear of all obstructions.

Big Tignish.—Two range lights. Back range light on beach at inner end of N. breakwater pier. Lat N. 46° 57′ 35″, lon W. 63° 59′ 20″. Building white square wood, with a black horizontal band 33 feet high. Fixed white catoptric 35 feet high, visible 11 miles. Front light on outer end of N breakwater pier 620 feet S. E. ½ E. from main light. Fixed red light is shown from a lantern on a mast with white shed at base. Light elevated 18 feet above high water mark, and visible 5 miles. These two lights in range guide N. W. ½ W. between the breakwaters.

Where an asterisk (*) is prefixed in the above list, the office is a Post Office Savings Bank.

Postage Stamps, Postage Cards, etc., issued by the Canadian P. O. Department.

The stamps issued by the Canadian Post Office Department, are of the following denominations, viz.: postage stamps, ½ c., 1 c., 2 c., 3 c., 5 c., 6 c., 8 c., 10 c., 15 c., 20 c. and 50 c.; 1c., 2c., 3 c. letter cards and

1 c. and 3 c. envelopes are also supplied. Post Cards are issued at one cent each, and may be sent to any address in Canada or United States. Reply Post Cards (2 cts.) may be sent to any address in Canada or the United States. Post cards are also issued at two cents each for transmission to the United Kingdom, Newfoundland, St. Pierre et Miquelon, and certain foreign countries. Post Bands are for sale at the rate of \$1.25 per hundred.

1st Class Matter.

Includes Letters, Post Cards, Legal and Commercial Papers wholly or partly written, (with the exception of those specially exempted,) and all matter of the nature of a letter or written correspondence.

POST OFFICE DEPARTMENT.

The letter rate for Canada, Newfoundland and the United States is 3 cents per oz., and for other countries 5 cents per \(\frac{1}{2} \) oz.

Letters addressed to any place in Canada upon which any postage has been prepaid by stamp, are to be forwarded to their destination charged with double the amount of the postage thereon not so pre-paid, which amount is to be collected on delivery.

Letters addressed to places in Canada or in the United States, wholly unpaid, and letters addressed to the United States on which at least one full rate (3 cents) has not been prepaid, are sent to the Dead Letter

office.

RE-DIRECTED LETTERS.

Letters re-directed to places in Canada, the United States and Postal Union Countries, without being taken out of the post office, or if handed back to post office as soon as possible after delivery therefrom, are not liable to any additional postage.

REQUEST AND ADDRESS LETTERS.

Letters for places in Canada, Newfoundland and the United States sent in envelopes having printed thereon a REQUEST that the letters be returned to the sender, or bearing on the corner the printed address of the sender, will be returned direct to the senders instead of being sent to Dead Letter Office.

POST CARDS.

For Canada and the United States, one cent each. For Great Britain, Newfoundland and all Postal Union Countries, two cents each. Reply cards, for Canada and the United States, two cents each. A post card may be addressed by means of an adhesive tag, but nothing else must be attached to it, except, of course, an additional stamp when necessary, nor must the card be cut or defaced in any way.

Private Post Cards may be sent under the following conditions—
The words "Private Post Card" must be distinctly printed or written
on the address side near the top. The name and address of the sender
may be printed on the face of the card, but the face of the card is not
to be used for advertising purposes. Private Post Cards must not
exceed a size of 6 inches in length by 3\frac{5}{8} inches in width and must not
be less than 3\frac{1}{4} inches by 2\frac{1}{4} inches. Cards not complying with these
regulations will be treated as insufficiently paid letters.

2nd Class Matter.

Newspapers and periodicals posted from the office of publication and authorized to pass free of postage to regular subscribers in Canada Newfoundland and the United States.

3rd Class Matter.

NEWSPAPERS AND PERIODICALS.

Transient newspapers within the Dominion and the United States, 1 cent per four ounces or fraction thereof—but a single paper weighing not more than one ounce will be torwarded for ½ cent. For the United Kingdom and all Postal Union countries, the rate is 1 cent per two ounces, or fraction of two ounces.

A newspaper or periodical must have no cover which can not easily be withdrawn. It must contain noenclosure. It must have no writing thereon but the name and address of the person to whom it is sent.

BOOKS, CIRCULARS, ETC.

The postage on printed books, pamphlets, circulars, occasional publications, etc., addressed to Canada, is 1 cent per 4 oz. To the United

al publi-United

States, Newfoundland, Great Pritain and all European countries, 1 eent per 2 oz. The postage on blank books, printers' proof sheets, maps, prints, draw'ngs, engravings,, lithographs, photographs, sheet muslc, printed forms, entirely blank, and printed stationary, etc., addressed to Canada and the United States, is 1 cent per 2 oz. No package must exceed in length 2 feet by 1 foot in width or depth. The limit of weight for Canada, United States and Great Britain is 5 lbs.

Seeds, cuttings, bulbs, roots and scions or grafts can only be sent to the United States as 5th class matter; when posted for delivery in Canada, the postage is 1 cent per 4 oz., and the limit of weight 5 lbs.

Commercial papers and legal documents may be sent to Great Britain, all European countries and United States, at 5 cents for the first 10 oz and 1 cent for every additional 2 oz These papers, when posted for delivery in Canada, must be prepaid at Letter or Parcel Post rates—but deeds and insurance policies may be sent if prepaid 1 cent per 2 oz.

PATTERNS AND SAMPLES.

Bona fide patterns and samples of merchandise, not exceeding 24 ounces in weight, may be sent to any place in Canada at 1 cent per 4 ounces. Must be put up so as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, not being actually Trade Patterns or Samples, are not admissable as such. The limit of weight to United Kingdom is 5 lbs., and the limit of size 2 ft in length by 1 in breadth or depth. Postage, 2 cents for the first 4 ounces, and 1 cent for every additional two ounces.

4th Class Matter. - CLOSED PARCELS

Closed parcels may be sent to places in Canada. They must be plainly addressed and should have the sender's name on the lower left hand corner. No correspondence must be enclosed.

Parcels for Canada must be prepaid 6 cents for 4 ounces, and must not exceed 5 lbs. in weight nor 2 feet in length by 1 foot in width or

depth. They may be registered for a fee of 5 cents.

5th Class Matter

comprises such articles of general merchandise as are not entitled to any lower rate of postage Postage 1 cent per oz., or fraction of an ounce. Limit of weight 5 lbs., of size, two feet in length by one foot in width or depth. Matter claiming to be 5th class must be open to inspection, and there must be no correspondence enclosed. Packages of 5th class matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to customs inspection and collection of duty in the United States. Sealed tins containing fish, lobster, vegetables, meat, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents may be sent as 5th class matter within the Dominion, but no scaled matter can be forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as 5th class, if put up in accordance with the ruling referring to such articles in the Canada Postal Guide.

FOREIGN PARCEL MAIL.

A parcel post mail for the United Kingdom and certain other countries, is made up weekly at the Halifax P. O. for transmission A parcel for the United Kingdom must by Canadian Packet.

POST OFFICE DEPARTMENT.

not exceed 11 lbs. in weight, nor two feet in length by 1 foot in width or depth The postage is 16 cents for the first lb. and 12 cents for each additional lb. or fraction thereof. Parcels can be sent to all the countries and colonies with which the United Kingdom maintains a parcel post. Information as to the principal places, and the rates applicable, can be obtained at the delivery wicket.

A Customs declaration form giving an accurate statement of the contents and value of the parcel, etc., must be filled up by the sender. This form must be affixed to the parcel. The forms can be obtained

at the delivery wicket of the Post Office.

REGISTRATION.

Every article intended for registration must be handed in at the Post Office, and a receipt obtained therefor. On no account must it be dropped into a letter box. The registration fees on letters to places in Canada, Newfoundland, the United States, Great Britain and all European countries, is 5 cents.

All classes of matter may be registered to all destinations in Canada and throughout the Postal Union; and letters may be registered to

most of the countries not included in the Union.

MATTER WHICH CANNOT BE FORWARDED THROUGH THE POST.

Any explosive substance, liquid; etc., not properly put up, and other matter likely to entail risk or injury to the ordinary contents of the mail, will be sent to the D ad Letter Office, Ottawa.

Glass in any form is also inadmissible, except eye-glasses, spectacles and microscopic slides, which properly put up and prepaid at parcel

post rate or 5th class matter rate.

No immoral publication, and no letter or post card bearing injur-

ious words, devices, etc., can be forwarded through the mails.

Letters containing gold or silver money, jewels or precious articles, or anything liable to customs duties, cannot be forwarded by post to any of the Postal Union Countries, except to the United States.

Religious and Literary Institutions.

COLLEGE AND SEMINARY OF ST. FRANCIS XAVIER. -- Established in COLLEGE AND SEMINARY OF ST. FRANCIS AAVIER.—ESTABLISHED IN the town of Antigonish. Rector, Rev. Dr. D. A. Chisholm; Professors, Rev. Alex. McDonald, D. D., Rev. A. McD. Thompson, D.D., Rev. D. Gillis, Ph.D., H. D. Barry, R. E. Macdonald, C. Cormier, Rev. D. McAdam, Messrs T. F. Horrigan, M. A., E. W. Connolly, B. A.

THE TRAPPIST MONKS, at Tracadie, had a flourishing establishment,

destroyed by fire, but now in course of reconstruction. The Monks are principally natives of Belgium. Here also, there is a Convent of the Trappistine Sisters, all natives of the place, and generally of French and

Scotch origin.

THE SISTERS OF THE CONGREGATION OF NOTRE DAME, of Montreal. have flourishing academies for female education of the highest order at Arichat, Antigonish, Pictou, New Glasgow, West Arichat, Sydney, Port Hood, New Glasgow and Mabou. Besides, there are throughout the diocese several academies, and superior and common schools, partly supported by government, and partly by contributions of the people. There are also superior schools at Stellarton, Little Glace Bay. North Sydnay, and Harbour Boucher, conducted by the Sisters of Charity.

SIGNAL SERVICE,

PORT OF HALIFAX.

Superintendent, Capt. H. V. Kent, R.E. Director, Company Sergt.-Major, W. Allen, R. E. Telephone, No. 45.

EXPLANATION OF SIGNALS.

Made on Main Signal Staff at Citadel Hill, when Vessels are seen from the Citadel or reported from Camperdown Signal Station.

The approach of all vessels is reported from the Lookout Station at Camperdown to the Signal Station at the Citadel, a man being on watch at either place day and night. These stations are connected by a Military Telephone line, and as the Citadel Station is connected to the Civil Exchange, information regarding any vessel can at any hour be obtained by subscribers on the Civil Exchange.

As soon as a vessel is perceived by the man on watch at Camperdown, he at once reports the fact to the Citadel, stating whether she is a steamer or a sailing vessel; if the former, she is signalled at the Citadel by a cross, (signifying unknown steamer) hoisted at the extremity of the upper yard, on the east side, if she is reported to be approaching from that quarter, on the west, if she is approaching from the other direction. This first report is usually made on first sighting the smoke of the steamer on the horizon; as she gets nearer, the man on watch observes whether she is a first class (or crean going) steamer, or a second class (or coasting) steamer; if he reports her as first class, the cross is hauled down and replaced by a large ball, if second class by a small ball.

As soon as the indentity of the steamer is ascertained her name is reported, and if she is a mail vessel the proper mail flag is hoisted half way out on the lower yard, while the house flag of her owners is hoisted on the private staff near by.

Should the vessel, however, be reported to be a man of war, or one of the Dominion Government Vessels, the cross will be lowered from the end of the upper yard, and a ball or cross will be hoisted half way out on the upper yard, a large ball denoting a Flag Ship: a small ball denoting a Cruiser; and a cross denoting a Gunboat, or Torpedo Catcher, or Torpedo Boat, or else a Dominion Vessel, in which latter case the Dominion Ensign will be hoisted half way out on the lower yard. In all other cases the National Ensign of the Country to which the Warship belongs will be hoisted half way out on the lower yard. A further report is made from Camperdown when any vessel crosses the line between Devil's Island and Chebucto Head, and on this report the ball or cross denoting the vessel, is lowered and a pennant is bent on under it, and the signal is rehoisted, signifying that the vessel has entered the Harbor.

It is thus obvious that when the pennant (in the case of a steamer it is white with a blue ball) is seen flying beneath a ball or cross, it means that:—The vessel signalled has entered the Harbor, but as long as the ball, or cross has no pennant below it, the vessel is still outside the line above mentioned.

There is one exception to this rule, namely, in the case of a fleet entering the Harbor, when one pennant beneath the group of balls, or crosses representing the fleet is sufficient to denote that the fleet has entered. For Merchant Steamers and Sailing Vessels each ball or cross will receive its distinctive pennant as each vessel enters. The distinctive pennant of a Troopship is a white flag with two blue crosses.

Sailing Vessels are signalled in the following manner .-

On being first sighted by the man on watch at Cumperdown he reports whether the vessel is square rigged, (and if so how many masts she has) or schooner rigged. If she is square rigged, and has three masts or more, she is signalled at the Citadel by a large ball on the end of the lower yard, If she is square-rigged and has only two masts, a small ball is hoisted; and if schooner or cutter rigged, a cross is hoisted.

As she approaches the mouth of the Harbor, the man at Camperdown will ascertain her rig definitely and report whether she is a Ship, or Barque, or Brig, or Brigantine, and when she crosses the line between Devil's I-land and Chebucto Head, he will report the fact to the men at the Citadel, who will haul down the ball, or cross, and bend beneath it the descriptive pennant and reboist.

The descriptive pennants for the various rigs, are as follows:— Ship, blue; Barque, blue and white: Brig, red; Brigantine, red and white; Schooner, white; Cutter or Sloop, white with red ball.

As in the case of Merchant Steamers, the house flag, if kept at the Station, will be hoisted on the private staff, when the vessels identity is known. If the vessel is a private yacht, a blue swallow-tail burgee will be hoisted on the private staff.

The following are the distinctive Mail flags employed:-

Weekly Mail from England. Blue flag with white centre.
" " for " ... Blue to white flag quartered.
Fortnightly from " ... Pod flag with white centre.

Fortnightly from "... Red flag with white centre."

"Blue and red flag quartered with white ball in first quarter."

New foundland Mail White flag with Blue centre. Bermuda " Red " Red "

Should the direct Mail from England, arrive during the night, a red triangular flag is hoisted half-way out on the lower and (east side) from 7 a.m. to 9 a.m.

When the mail from England is reported to have arrived at Rimouski, a blue flag with white "R" in centre is hoisted half-way out on lower yard (west side), for one hour. When the news is received during the night, this flag will be flown from 8 a m. to 9. a. m.

It will be noticed that the upper yard is reserved for steamers, the outer halliards being for merchant steamers, and the inner for menof war.

The outer halliards of the lower yard are reserved for sailing vessels, and the inner halliards for mail flags and national ensigns of menof-war.

Steamers only are signalled at night in the following manner:—

A steamer approaching from the west will be signalled by hoisting a green light on the end of the west lower yard arm, and a steamer approaching from the east will be signalled by a red light on the end of the eastern yard arm.

If two steamers are approaching from the east, a second red light will be hoisted close beneath the first and so on, one red light for each steamer from the east, and one green light for each steamer from the

When a Steamer enters the Harbor (i.e., passes the line between Chebucto Head to Devil's Island) a white light will be hoisted close beneath the colored light which denotes her approach, thus corresponding with the steamer pennant hoisted by day beneath the ball when a steamer enters the Harbor.

When two Steamers from the east have entered, the white light will be hoisted close beneath the two red lights, but if one steamer has entered and the other is still outside, the white light will be hoisted

et or is or

e J. beneath the upper red light and above the lower one which denotes the approach of the second steamer. The same with two steamers from the west.

Night signals for Mail Steamers, and Men-of-War will be made as hitherto, the vertical intervals between those lights being 12 feet.

MAIL SIGNALS.

The following are the signals made by Royal Mail Steamers when entering Halifax Harbor, between Chebueto Head and York Redoubt.

Description of Mail.	Day Signals.	Night Signals.
English outward (Fortnightly)	The American Ensign at Fore.	Blue, White and Red Rockets and Blue Light.
English homeward (Fortnightly)	English red Ensign at Fore.	Blue, White and Red Rockets.
English outward (Weekly)		Or fires two guns or Bomb Rockets and burns blue light.
English homeward . (Weekly)	Fires 1 gun or Bomb rocket and fly's Canadian Ensign at Fore.	Rocket and burns

It is also customary when Steamer is abreast of George's Island to fire two bomb rockets on passage from England, and one bomb rocket on passage from United States or Portland.

Pickford & Black, a blue flag, white diamond, with P. & B. in red letters in the diamond.

Custom House, a blue flag, Union Jack in the upper corner, a crown in the centre, with a white C H below it

Private Yacht, a blue burgee.

Royal Nova Scotia Yacht Squadron. The Ensign of the Squadron shall be the Blue Ensign of Her Majesty's Fleet. The Burgee shall be blue with a red cross of St. George, edged white and the arms of Nova Scotia in the first quarter. The Commodore's flag shall be the Squadron burgee, swallow-tailed; the Vice Commodore's a small burgee with one white ball in the third quarter; the Rear Commodore's a similar burgee, with two white balls in the third quarter.

Directions to Mariners with Reference to Canadian Storm Warnings issued for Quebec and the Maritime Provinces.

I.—Cone, hoisted with the apex downwards, indicates "moderate gale is expected," probably at first from an easterly direction.

II - Cone, with apex pointing upwards, indicates "moderate gale is

expected," probably at first from a westerly direction.

III. Drum, with Cone underneath, the apex pointing downwards, indicates fresh to heavy gale is expected, probably at first from a easterly direction.

IV.—Drum, with Cone above, the apex pointing upwards, indicates fresh to heavy gale is expected, probably at first from a westerly direction.

The Cone, when hoisted by itself, indicates that it is expected that the wind will obtain a velocity of 30 miles an hour, but will not exceed 40 miles; and it is not intended that an ordinary well found vessel should stay in port, but simply as a warning to mariners that strong winds are expected from the quarter indicated.

The Drum will always be hoisted when the velocity of the wind is

expected to exceed 40 miles an hour.

The night signal, corresponding to Nos. 1 and 3, is two white lanterus hanging perpendicular.

The night signal, corresponding to Nos. 2 and 4, is two white lanterns hanging horizontally.

Notes.—Mariners will be able to obtain further information from Drum Agents or by consulting the daily probabilities. Mariners should always bear in mind that the storm signals are merely cautionary, and do not necessarily mean that a storm will occur at the place where the signal is displayed, but that one is expected either there or within such a distance that vessels leaving port would be liable to b caught in it.

The storm warnings issued for Nova Scotia, are received from the Central Office, Toronto. Ont.

MEDICAL REGISTER.

PROVINCIAL MEDICAL BOARD—Members Appointed by Government.

SCHOOL FOR THE BLIND.

This Institution provides for the education and training of blind persons of either sex throughout the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of ten and twenty-one are admitted free of all charge. The school is open to the public on Wednesday of each week, at 3 p.m. C. F. Fraser, Superintendent.

The Superintendent of the Institution is anxious to obtain Names, Ages, and Post Office Address of all Blind Persons in the Maritime Provinces Clergymen and Physicians are in a position to supply this information, and will confer a favour by so doing.

DEAF AND DUMB INSTITUTION.

This Institution which has been thirty-six years in operation is not an Asylum, but a School. It provides for the education of the deaf and dumb of the Maritime Provinces. Pupils from the Province of Nova Scotia between the ages of eight and eighteen, are admitted free. Both the Sign System and the Oral Method are employed in this School. Principal, James Fearon.

President, Hon D. McN Parker, M.D. Secretary, Rev. President Forrest, D. D. Hon Provincial Secretary, J. F. Kenny, Wm. Tobla, M.D., Andrew Mackinlay, Esq. Treasurer, H. H. Woodbury, D.D.S.

The Principal of the Institution will feel thankful to clergyman, physicians or others who can give him the names, ages and Post Office address of all uneducated deaf and dumb persons in their neighborhoods, in order that such may be brought within the reach of instruction.

SYDNEY COAL.

This Celebrated Coal, mined by the General Mining Association, Ltd., of London, G. B., at North Sydney, Cape Breton, has long been generally known under the name of Sydney Coal, and this name is registered as a Trade Mark. To guard against deception from other coals being sold with the prefix of "Sydney," or as "Sydney Coal," a Certificate is issued with each cargo of Genuine Sydney Coal Shipped.

"Sydney Coal" stands at the head of all Nova Scotian and Cape Breton Coals in its reputation for House Use. It is also an excellent Steam Coal.
